### Software Handling Procedures

Models: All Engines

Distributing: Parts Date: 06-2005 Binder: Parts Replaces: VPS 49-34A

Information to the market regarding two new concepts of Software Handling

Since May 2003, first engine is D12D-EVC, some engines have been produced within a new concept regarding Software handling.

In the new concept there is no possibility to order a pre-programmed ECU on part number level only.

Instead a mail including, among other things, Chassis Id/Engine Serial No., MID No. and part No. of the ECU, has to be created. The order form will be sent to the order offices.

Please note that the order procedure of pre-programmed ECU's for engines produced before the introduction of the new concept, has not been changed.

However, after June 7<sup>th</sup> 2004 also ECU's for the old D12-engines will be treated in the "new concept" and thus can't be ordered on part no. level anymore.  
Please see Parts Bulletin No P-28-4-2.

OrderWarehouseInvoice procedure for ECU's in the new concept.

On Volvo Penta Partner Network there is an order form to fill in. Instructions how to fill in the form is described on Partner Network.

- The mail is sent to the Central Warehouse or a Support Warehouse.
- The central warehouse picks the ordered ECU and performs the downloading.
- Two invoices will be produced, one for the ECU and one for the Software.  
Exception: The ECU, included software for EDC4, will be charged on only one invoice.
- The pre-programmed ECU is shipped to the customer.

If you can't use VPPN you have to mail/fax the order form on next page to your ordinary Volvo Parts order office.

Dealer equipped with the Vodia tool will be able to perform a software download.  
This will result in one invoice.

Compared to ordering of a pre-programmed ECU from the central warehouse, the software price is lower when the dealer performs the downloading.
