AP English Language & Composition

Course Codes: A90 & A91

Year at a Glance 2022-2023

AP English Language and Composition course focuses on the development and revision of evidence-based analytic and argumentative writing, the rhetorical analysis of nonfiction texts, and the decisions writers make as they compose and revise. Students evaluate, synthesize, and cite research to support their arguments. Additionally, they read and analyze rhetorical elements and their effects in nonfiction texts—including images as forms of text—from a range of disciplines and historical periods.

RECOMMENDED PREREQUISITES

There are no prerequisite courses for AP English Language and Composition. Students should be able to read and comprehend college-level texts and write grammatically correct, complete sentences.

The course skills are organized into nine units that scaffold student development of the analysis and composition skills required for college credit. For each unit, the teacher selects a theme or topic and then chooses texts, typically short nonfiction pieces, that enable students to practice and develop the reading and writing skills for that unit.

Each unit culminates in a Personal Progress Check, made up of 1) a free-response question and scoring rubric for the teacher to administer in class or online and 2) online multiple-choice questions that provide each student with personalized feedback and the teacher with a class summary of skills.

The following big ideas serve as the foundation of the course, enabling students to create meaningful connections among concepts. Each big idea correlates with an enduring understanding, a long-term takeaway related to the big idea:

- **Rhetorical Situation:** Individuals write within a particular situation and make strategic writing choices based on that situation.
- **Claims and Evidence:** Writers make claims about subjects, rely on evidence that supports the reasoning that justifies the claim, and often acknowledge or respond to other, possibly opposing, arguments.
- **Reasoning and Organization:** Writers guide understanding of a text's lines of reasoning and claims through that text's organization and integration of evidence.
- **Style:** The rhetorical situation informs the strategic stylistic choices that writers make.

Course Skills

The following skill categories, tied to the big ideas, describe what skills students should develop during the course:

- **Rhetorical Situation – Reading:** Explain how writers' choices reflect the components of the rhetorical situation.
- **Rhetorical Situation – Writing:** Make strategic choices in a text to address a rhetorical situation.
- **Claims and Evidence – Reading:** Identify and describe the claims and evidence of an argument.
- **Claims and Evidence – Writing:** Analyze and select evidence to develop and refine a claim.
- **Reasoning and Organization – Reading:** Describe the reasoning, organization, and development of an argument.
- **Reasoning and Organization – Writing:** Use organization and commentary to illuminate the line of reasoning in an argument.
- **Style – Reading:** Explain how writers' stylistic choices contribute to the purpose of an argument.

web feb 3 2020 reflection occurs when light traveling through one material bounces off a different material the reflected light continues to travel in a straight line but in a different direction here are some things to remember about reflection light is reflected at the same angle that it hits the surface

physics light reflection and refraction toppr - Oct 10 2021

web learn the concepts of physics light reflection and refraction with videos and stories a fascinating aspect of physics is that it can help you explain everything that goes around in your house or the world and even throughout the cosmos well in this chapter we will focus on two of the most wonderful natural phenomena the lightning and the earthquakes

light reflection and refraction science primer - Mar 27 2023

web light reflection and refraction light is a complex phenomena it exhibits both wave like and particle like properties its exact nature is not fully understood and this complexity makes it difficult for one model to describe all of light s properties as a result different models describe different aspects of light s behavior

reflection of light light waves edexcel gcse physics single - Nov 22 2022

web light waves edexcel all waves will reflect and refract in the right circumstances the reflection and refraction of light explains how people see images colour and even optical illusions part

lesson plan light reflection refraction biophysical society - Nov 10 2021

web much like reflection refraction also describes a change in direction of light but it differs from reflection refraction is a noticeable bending of light when it travels from one substance to another

light reflection refraction class 10 physics india khan academy - Apr 15 2022

web science class 10 physics india unit 1 light reflection refraction 1 700 possible mastery points mastered proficient familiar attempted not started quiz unit test about this unit when light travels from one medium to another like air to glass or glass to water it does three things

reflection and refraction of light ccea refraction bbc - Sep 01 2023

web the change in direction of a beam of light as it travels from one material to another is called refraction the normal is a construction line drawn at right angles to the surface of the glass

24 2 reflection refraction and dispersion physics libretexts - Jun 29 2023

web we see the light reflected off a mirror coming from a direction determined by the law of reflection the changing of a light ray s direction loosely called bending when it passes through variations in matter is called refraction

difference between reflection and refraction of light toppr - Mar 15 2022

web 3 2 2 references what is reflection when a ray of light comes back into the same medium after striking the surface of another medium then the phenomenon is called reflection of light in other words reflection is the bouncing back of the light rays from a surface in the same medium what is refraction

reflection and refraction of light university of california san - Jun 17 2022

web 692 reflection and refraction of light p25 9 a as measured from the diagram the incidence angle is 60 and the refraction

angle is 35 from snell's law $\sin \theta_2 = \frac{v_2}{v_1} \sin \theta_1$ then $\sin \theta_2 = \frac{20}{30} \sin 35^\circ$ and the speed of light in the block is 20 10 8 ms b
the frequency of the light does not change upon refraction

16 1 reflection physics openstax - Feb 11 2022

web there are two laws that govern how light changes direction when it interacts with matter the law of reflection for situations in which light bounces off matter and the law of refraction for situations in which light passes through matter in this section we consider the geometric optics of reflection

refraction of light science learning hub - Sep 20 2022

web refraction is the bending of light it also happens with sound water and other waves as it passes from one transparent substance into another this bending by refraction makes it possible for us to have lenses magnifying glasses prisms and rainbows even our eyes depend upon this bending of light
