Jonathan Kirshner

World On Fire Amy Chua:

World on Fire Amy Chua, 2004-01-06 The reigning consensus holds that the combination of free markets and democracy would transform the third world and sweep away the ethnic hatred and religious zealotry associated with underdevelopment In this revelatory investigation of the true impact of globalization Yale Law School professor Amy Chua explains why many developing countries are in fact consumed by ethnic violence after adopting free market democracy Chua shows how in non Western countries around the globe free markets have concentrated starkly disproportionate wealth in the hands of a resented ethnic minority These market dominant minorities Chinese in Southeast Asia Croats in the former Yugoslavia whites in Latin America and South Africa Indians in East Africa Lebanese in West Africa Jews in post communist Russia become objects of violent hatred At the same time democracy empowers the impoverished majority unleashing ethnic demagoguery confiscation and sometimes genocidal revenge She also argues that the United States has become the world s most visible market dominant minority a fact that helps explain the rising tide of anti Americanism around the world Chua is a friend of globalization but she urges us to find ways to spread its benefits and curb its most destructive aspects World on Fire

on Fire Amy Chua, 2004-01-06 The reigning consensus holds that the combination of free markets and democracy would transform the third world and sweep away the ethnic hatred and religious zealotry associated with underdevelopment In this revelatory investigation of the true impact of globalization Yale Law School professor Amy Chua explains why many developing countries are in fact consumed by ethnic violence after adopting free market democracy Chua shows how in non Western countries around the globe free markets have concentrated starkly disproportionate wealth in the hands of a resented ethnic minority These market dominant minorities Chinese in Southeast Asia Croats in the former Yugoslavia whites in Latin America and South Africa Indians in East Africa Lebanese in West Africa Jews in post communist Russia become objects of violent hatred At the same time democracy empowers the impoverished majority unleashing ethnic demagoguery confiscation and sometimes genocidal revenge She also argues that the United States has become the world s most visible market dominant minority a fact that helps explain the rising tide of anti Americanism around the world Chua is a friend of globalization but she urges us to find ways to spread its benefits and curb its most destructive aspects **World on Fire Proof**

on Fire Proof Amy Chua, 2003-07-17 *Blame it on the WTO?* Sarah Joseph, 2011-04-14 The WTO is often accused of not paying enough attention to human rights This book weighs these criticisms and examines their validity both from a legal and from political and economic points of views It asks whether the WTO is under an obligation to construct a fairer trade system and discusses suggestions for reform **Invisible Crisis of Contemporary Society** Bernard S Phillips, Louis C.

Johnston, 2015-12-03 Is there a growing gap in today s world between cultural aspirations and their fulfillment a gap that is increasing social problems of all kinds If so what forces are producing that gap How can these forces be changed To answer these questions Phillips and Johnston employ a very broad approach to the scientific method drawing evidence from a wide

variety of data and sources including sociologists psychologists political scientists historians philosophers educators psychiatrists and novelists They find substantial evidence for a widening gap suggesting an invisible crisis throughout contemporary society They also find substantial evidence that a simplistic and static metaphysical stance or worldview is largely responsible for that gap and that an alternative worldview can work to close that gap

Critical Perspectives on Globalization Ann Malaspina, 2006-01-15 Primary and secondary source documents discuss the role of governments and corporations in globalizing the world how globalization affects economies the role of technology globalization and society and the future of globalization

Eternal Colonialism Russell Benjamin, Gregory O. Hall, 2010-02-03 This book examines eternal colonialism which describes policies designed by the Western world and United States to keep most of the world in a permanently subordinate political economic social and military state The authors argue that colonialism beginning in the fifteenth century

The Jewish Century, New Edition Yuri Slezkine, 2019-05-28 This masterwork of interpretative history begins with a bold declaration The Modern Age is the Jewish Age and the twentieth century in particular is the Jewish Century The assertion is of course metaphorical But it drives home Yuri Slezkine's provocative thesis Jews have adapted to the modern world so well that they have become models of what it means to be modern While focusing on the drama of the Russian Jews including migrants and their offspring The Jewish Century is also an incredibly original account of the many faces of modernity nationalism socialism capitalism and liberalism Rich in its insight sweeping in its chronology and fearless in its analysis this is a landmark contribution to Jewish Russian European and American history

Globalization and National Security Jonathan Kirshner, 2013-01-11 In this book top scholars of international relations assess the consequences of globalization for national security identifying three distinct processes of globalization the intensification of economic exchange the flow of information and marketization the expansion of the set of social relations governed by market forces exploring how they can affect the capacity and power of states as well as conflict within and among them Though much has been written on the topics of globalization and national security there has been relatively little in the way of a systematic examination of the impact that globalization has on a state's national security These essays deal with how stateless actors such as terrorists utilize the benefits of globalization changing the nature of the security game Failure to account for the influence of globalization will make it increasingly difficult to understand changes in the balance of power prospects for war and strategic choices embraced by states

Child Soldiers, Adult Interests John-Peter Pham, 2005 This book weaves a narrative of the history of Sierra Leone from its foundation as a settlement for black slaves who fought for the British Crown during the American Revolution through the events of the civil war with a discussion of more general geopolitical lessons to be learned from the recent conflict its origins and settlement In addition the book contains six appendices that render the present work the first comprehensive history of Sierra Leone since the classic studies published more than a generation ago by Christopher Fyfe and John Peterson an invaluable reference on conflict resolution in general as well as the West African

country in particular including a chronology of select events in the history of Sierra Leone and the texts of the peace agreements and other post conflict documents *Black Rednecks and White Liberals* Thomas Sowell,2006 Sowell seeks to dispel the stereotypes associated with black rednecks claiming that their attempts to escape these typecasts are hampered by white liberals He ventures further questioning other ethnic stereotypes and the present practice of slavery **Ethnicity and International Law** Mohammad Shahabuddin,2016-04-06 An historical analysis of how ethnicity shaped international law and why it is relevant to minorities and ethnic conflicts today Toward Better Governance in China Baogang Guo,Dennis V. Hickey,2009-11-12 Toward Better Governance in China takes a fresh look at the latest efforts made by Chinese leaders to promote governance based reform It asserts that the improvement of governance has now become one of the breakthrough points of the much anticipated political reform Although the Chinese government continues to play down expectations about political reform many small scale reform experiments have been quietly undertaken by Chinese leaders at various levels in recent years including the new round of administrative reform centered on the creation of super ministries the enlargement of inner party democracy within the Chinese Communist Party CCP the strengthening of local legislative bodies and judicial reform designed to promote judicial independence and rule of law This strategy calls for strengthening governing capacity and changing government functions One of the advantages in placing the improvement of governance first is that it is less risky than embarking upon a full scaled electoral reform Electoral democracy is undoubtedly an important element in a functional democracy But equally important is the effectiveness transparency accountability and openness of the governing process Better governance implies greater transparency open deliberation and participation and less adversarial political confrontation and conflict If constructed properly China may become the sort of democratic administration or administrative democracy that Robert Dahl discussed in 1947 Clearly political reform of this kind does not follow the conventional wisdom of a democratic transition which places heavy emphasis on electoral reform or the precedence of the electoral reform to the government reform This book is intended to shed some new light on the ongoing debate about the direction of China s political development **Genocide** Adam Jones,2016-12-16 Genocide A Comprehensive Introduction is the most wide ranging textbook on genocide yet published The book is designed as a text for upper undergraduate and graduate students as well as a primer for non specialists and general readers interested in learning about one of humanity s enduring blights Fully updated to reflect the latest thinking in this rapidly developing field this unique book Provides an introduction to genocide as both a historical phenomenon and an analytical legal concept including the concept of genocidal intent and the dynamism and contingency of genocidal processes Discusses the role of state building imperialism war and social revolution in fuelling genocide Supplies a wide range of full length case studies of genocides worldwide each with a supplementary study Explores perspectives on genocide from the social sciences including psychology sociology anthropology political science international relations and gender studies Considers The Future of Genocide with

attention to historical memory and genocide denial initiatives for truth justice and redress and strategies of intervention and prevention Highlights of the new edition include Nigeria Biafra as a contested case of genocide Extensive new material on the Kurds Islamic State ISIS and the civil wars genocide in Iraq and Syria Conflict and atrocities in the world s newest state South Sudan The role activities and constraints of the United Nations Office of Genocide Prevention Many new testimonies from genocide victims survivors witnesses and perpetrators Dozens of new images including a special photographic essay Written in clear and lively prose with over 240 illustrations and maps Genocide A Comprehensive Introduction remains the indispensable text for new generations of genocide study and scholarship An accompanying website www.genocidetext.net features a broad selection of supplementary materials teaching aids and Internet resources *Just Trade* Berta Esperanza Hernández-Truyol, Stephen Joseph Powell, 2012-09-17 In the mid 1940s once the full impact of World War II was assessed the world witnessed major legal developments in both modern trade and human rights Since then volumes have been written about modern trade law and human rights law has seen an equal amount of attention While these topics constitute two of the most active spheres in international law follow similar intellectual trajectories and often feature the same key actors and arenas neither field has actively engaged with the other They co exist in relative isolation at best peppered by occasional hostile debates It has come to be a given that pro trade laws are not good for human rights and legislation that protects human rights hampers vibrant international trade In a bold departure from this canon Just Trade makes a case for reaching a middle ground between these two fields acknowledging their co existence and the significant points at which they overlap Using actual examples from many of the thirty five nations of the Western Hemisphere the authors one a human rights scholar and the other specializing in trade law carefully combine their expertise to examine human rights policies involving conscripted child labor sustainable development promotion of health equality of women human trafficking indigenous peoples poverty citizenship and economic sanctions never overlooking the very real human rights problems that arise from international trade However instead of viewing the two kinds of law as isolated polar and sometimes hostile opposites Berta Esperanza Hernandez Tuyol and Stephen J Powell make powerful suggestions for how these intersections may be navigated to promote an international marketplace that embraces both liberal trade and liberal protection of human rights

Extremist Mindsets and Strategies S. Clara Kim, 2021-06-11 Presenting an analysis of modern day extremism this book explores how any group of people or participants in a movement political ideological racial ethnonational religious or issue driven can adopt extremist mindsets if they believe their existence or interests are threatened Looking beyond fringe resistance groups already labeled as terrorists or subversives the author examines conventional organizations political parties religious groups corporations interest groups nation states police and the military that deploy extremist strategies to further their agendas Dynamics of mutual causation process between dominant and resistant extremist groups are explored including how resistant extremisms surface in response to oppressive and abusive measures advanced by the dominant

groups to further their interests and maintain supremacy through systemic injustices as happens in slavery caste systems patriarchy colonialism autocracy exploitive capitalism and discrimination against minorities

China's Foreign Aid and Investment Diplomacy, Volume III John F. Copper, 2016-04-29 Today by many accounts China is the world's foremost purveyor of foreign aid and foreign investment to developing countries This is the product of China's miracle economic growth over a period of more than three decades together with China's drive to become a major player in world affairs and accomplish this through economic rather than military means This three volume work is the first comprehensive study of China's aid and investment strategy to trace how it has evolved since Beijing launched its foreign aid diplomacy at the time of the founding of the People's Republic of China in 1949 Volume III offers an analysis of China's foreign aid and investment to countries outside of Asia in Africa Europe the Middle East Latin America and Oceania Africa was and is the most important of these regions and it is given special treatment In the concluding chapter Copper reviews the findings of previous volumes delineates China's most important victories and setbacks and notes opposition to and criticism of China's aid and investment diplomacy Copper gives evidence that will be shocking to some of the reality that China's financial help to developing countries is one of the most salient trends in international politics and constitutes a formidable challenge to the United States Japan and Europe as well as international financial institutions

Making History in Mugabe's Zimbabwe Blessing-Miles Tendi, 2010 The crisis that has engulfed Zimbabwe since 2000 is not simply a struggle against dictatorship It is also a struggle over ideas and deep seated historical issues still unresolved from the independence process that both Robert Mugabe's ZANU PF regime and Morgan Tsvangirai's MDC are vying first to define and then to address This book traces the role of politicians and public intellectuals in media civil society and the academy in producing and disseminating a politically usable historical narrative concerning ideas about patriotism race land human rights and sovereignty It raises pressing questions about the role of contemporary African intellectuals in the making of democratic societies In so doing the book adds a new and rich dimension to the study of African politics which is often diluted by the neglect of ideas

Crusade to Immunize the World's Children Dr. William Muraskin, 2005 A book on the early initiatives by Bill Gates and his Foundation to revolutionize the global effort aimed at immunizing the world's children against infectious diseases a major killer in the developing world Written by leading social historian and chronicler of recent developments in international public health William Muraskin PhD

The Role of International Law in Rebuilding Societies After Conflict Brett Bowden, Hilary Charlesworth, Jeremy Matam Farrall, 2009-04-16 The genesis of this book was a workshop entitled Empire or Empowerment The Role of International Law in Building Democracy and Justice after Conflict held at the Australian National University in Canberra on 9-10 August 2007
