ICTs, Citizens and Governance Albert Meijer, Kees Boersma, Pieter Wagenaar, 2009 ICTs Citizens and Governance After the Hype aims to help researchers and practitioners to understand hypes about ICT and government without becoming cynical Hypes can be functional in triggering processes of change but one should be able to distinguish a trigger from a realistic set of expectations This book combines an analysis of the discourse in terms of hypes with an analysis of practices in terms of stable routines and relational patterns The relation between the discourse and resulting changing is complex situational and interpretable in multiple ways but certainly merits our attention **Childhoods** Gaile Sloan

Cannella, Lourdes Diaz Soto, 2010 For the past 20 years a range of scholars educators and cultural workers have examined dominant discourses of childhood using critical feminist and other postmodern perspectives Located in a variety of disciplines these poststructural deconstructive and even postcolonial critiques have challenged everything from notions of the universal child to adult child dualisms to deterministic developmental theory The purpose of this volume is to acknowledge the profound contributions of that large body of literature while demonstrating the ways that critical analyses can be used to generate avenues actions that increase possibilities for social justice for those who are younger while at the same time avoiding determinism In this time of globalization hyper capitalism and discourses that would control and disqualify through constructions like accountability we believe that projects such as this are of utmost importance The volume is divided into four major sections to reflect the multiplicity of human voices and perspectives section I contemporary circumstances and dominant discourses within which we all attempt to function sections II and III and the generation of new possibilities for constructing relationships together section IV Finally a voice from the heart within a reconceptualist social science agenda for early childhood studies is presented Transforming Government Organizations Ronald R.
