excrement and body odours were formative aspects of eroticism and sexuality for the social elite and the popular classes alike At the same time medicine explained outbreaks of plague by Satan s poisonous breath corrupting the air Amber musk and civet came to be seen as vital bulwarks against the devil s breath scents were worn like armour against the plague The disappearance of the plague after 1720 and the sharp decline in fear of the devil meant there was no longer any point in using perfumes to fight the forces of evil paving the way for the olfactory revolution of the 18th century when softer sweeter perfumes often with floral and fruity scents came into fashion reflecting new norms of femininity and a gentler vision of nature This rich cultural history of an under appreciated sense will be appeal to a wide readership *The Scent of Eros* James Vaughn Kohl,Robert T.
