Global Queens Joseph Heathcott, 2023-10-03 Winner The David R Coffin Publication Grant A vibrant exploration of the everyday life of one of the most diverse places in the world Queens New York Remade by decades of immigration Queens New York has emerged as an emblematic space of social mixing and encounters across multiple lines of difference With its expansive subdivisions tangled highways and centerless form it is also New York's most enigmatic borough It can feel alternately like a big city a tight knit village a featureless industrial zone or a sprawling suburban community Through more than 200 contemporary photographs Joseph Heathcott captures this multifaceted borough and one of the most diverse places in the United States Drawn from more than a decade of roaming around Queens and snapping photos Heathcott conveys the juxtaposition of the ordinary and the extraordinary the mundane and the surprising and the staggering social diversity that best characterizes Queens At the heart of the story are two separate but entwined histories the rapid expansion of the borough's built environment through the twentieth century and the millions of people who have traveled from near and far to call Queens home Newcomers have had to confront discrimination white racial hostility legal challenges and language barriers They have had to struggle to find adequate housing places to worship and jobs that pay enough to survive And they have done all of this in the borough's jumbled collection of neighborhoods housing types civic and religious institutions factories and warehouses commercial streets and strip malls Heathcott makes primary use of documentary photography to bring these social and spatial realities of everyday life into relief He also draws on demographic data archival sources planning documents news stories and reports The result is a visual meditation on Queens that provides clues about an urban future where notions of citizenship and belonging are negotiated across multiple lines of difference but where a sense of getting along however roughly textured and unfinished has taken hold in the everyday life of the streets

Interpreting Islam Hastings Donnan, 2002-02-15 Islam is one of the most misunderstood concepts in the West Myths and stereotypes surround it This clear and penetrating volume helps readers to make sense of Islam It offers a penetrating guide to the diversity and richness of contemporary knowledge about Islam and Muslim society Throughout the emphasis is upon the value of pluralistic approaches to Islam rather than condensing

complexity with unifying concepts such as Orientalism Interdisciplinary in scope and organization the book cuts through the bewildering and seemingly anarchic diversity of contemporary knowledge about Islam and Muslim society The methodological difficulties and advantages of Western researchers focusing on Islam are fully documented The book demonstrates how gender age status and insider outsider status impacts upon research and inflects research findings
