Authoritarian Modernization in Russia Vladimir Gel'man, 2016-08-12 Post Communist Russia is an instance of the phenomenon of authoritarian modernization project which is perceived as a set of policies intended to achieve a high level of economic development while political freedoms remain beyond the current modernization agenda or are postponed to a distant future Why did Russia unlike many countries of post Communist Europe pursue authoritarian modernization after the Soviet collapse What is the ideational agenda behind this project and why does it dominate Russia s post Communist political landscape What are the mechanisms of political governance which maintain this project and how have they adopted and absorbed various democratic institutions and practices Why has this project brought such diverse results in various policy arenas and why have the consequences of certain policies become so controversial Why despite so many controversies shortcomings and flaws has this project remained attractive in the eyes of a large proportion of the Russian elite and

ordinary citizens This volume intended to place some of these questions on the research agenda and propose several answers encouraging further discussions about the logic and mechanisms of the authoritarian modernization project in post

Communist Russia and its effects on Russia's politics economy and society **Quintessential Cities, Accountable to the Future** Voula Mega, 2013-05-29 This book can be seen as the third part of an unofficial trilogy on Sustainable Cities of the Future with the author's previous books Sustainable Development Energy and the City and Sustainable Cities for the third millennium The Odyssey of urban excellence both prefaced by Prof Sir Peter Hall All three books follow the evolving forefront of innovations towards Sustainable Cities They collectively try to respond to the questions What future cities wish to build with their scarcities and capacities on a finite planet What do they do to achieve this How do they contribute to redesign the world The third book adopts first and foremost a strategic foresight approach including a scan of the future trends tensions and risks in a more uncertain world the possible and preferable futures emerging policy issues such as intergenerational cities or cities welcoming the immigrants and their impact on sustainable development the Rio 20 prospects and the effects of the protracted crisis efforts by world interconnected cities including a case study on Bangkok a laboratory of urban change and examples of frugal and resilient urban policies

Routledge Handbook of Global Citizenship Studies Engin Isin, Peter Nyers, 2014-06-27 Citizenship studies is at a crucial moment of globalizing as a field What used to be mainly a European North American and Australian field has now expanded to major contributions featuring scholarship from Latin America Asia Africa and the Middle East The Routledge Handbook of Global Citizenship Studies takes into account this globalizing moment At the same time it considers how the global perspective exposes the strains and discords in the concept of citizenship as it is understood today With over fifty contributions from international interdisciplinary experts the Handbook features state of the art analyses of the practices and enactments of citizenship across broad continental regions Africas Americas Asias and Europes as well as deterritorialized forms of citizenship Diasporicity and Indigeneity Through these analyses the Handbook provides a deeper understanding of citizenship in both empirical and theoretical terms This volume sets a new agenda for scholarly investigations of citizenship

Its wide ranging contributions and clear accessible style make it essential reading for students and scholars working on citizenship issues across the humanities and social sciences

The Political Economy of Intra-BRICS Cooperation

Siphamandla Zondi, 2022-07-07 This book uses the idea of internal cohesion through intra BRICS cooperation to make the argument that the next phase in the evolution of BRICS is to strengthen cooperation among BRICS countries in the implementation of decisions taken There is a risk that what the BRICS promises and what it represents both in the eyes of its friends and foes might not materialise in the absence of central institutions So the book calls for the deepening intra BRICS cooperation across all policy areas where there are already undertakings could help mitigate this risk

Corporate Governance Thomas Clarke, 2021-02-11 The recognition of the profound impact of corporations on the economies and societies of all countries of the world has focused attention on the growing importance of corporate governance There is an ongoing diversity of corporate governance systems based on historical cultural and institutional differences that involve different approaches to the values and objectives of business activity Sound corporate governance is universally recognised as essential to market integrity and efficiency providing a vital underpinning for financial stability and economic growth As the adequacy of the existing dominant paradigms of corporate governance are increasingly challenged the search for coherent new paradigms is a vital task for corporate governance in the future

Corporate Responsibility Coalitions David Grayson, Nelson Jane, 2017-09-08 The significance of business led corporate responsibility coalitions is indisputable The WBCSD has 200 member companies with combined annual revenues of US 7 _trillion_ the UN Global Compact has almost 8 000 corporate members over two thirds of them from developing countries It is estimated that there are more than 110 national and international generalist business led CR coalitions But there is now urgent need for informed and balanced analysis of their achievements their progress and their potential Why did these coalitions start and grow What have been their impacts Where are they heading now Where should they be going What is the future In a period of austerity the business and public sector must decide whether funding these coalitions is a priority To meet current crises there will have to be a great deal more business involvement but efforts of individual corporations will not be sufficient There is also a need for far more collective action among companies and more collaborative action between different sectors of society Business led CR coalitions with their decades of convening experience could play an important role in this process if they are fit for purpose going forward Authors David Grayson and Jane Nelson have been actively involved in such coalitions for decades In Corporate Responsibility Coalitions they first explore the past present and future of these coalitions the emergence of new models of collective corporate action over the past four decades the current state of play and the increasing number diversity and complexity in terms of how they not only network with each other but also engage in a much broader universe of institutions that are promoting responsible business practices In addition the book provides in depth profiles of the most strategic effective and long standing coalitions including Business for Social Responsibility Business in the Community CSR

Europe Instituto Ethos International Business Leaders Forum the UN Global Compact and the WBCSD This book will be required reading for key supporters and potential partners of such coalitions in companies governments international development agencies foundations non governmental organizations academic institutions and think tanks It also aims to inspire a future generation of leaders to be more aware of the role of business as a partner in driving more inclusive green and responsible growth and to help them develop new types of leadership skills so that they can be effective in finding multi stakeholder solutions to complex and systemic challenges *Handbook on Comparative and International Studies in Education* Donald K. Spillan, Nicholas

Virzi, Mauricio Garita, 2014-04-03 Success in today's globalized business environment requires deep knowledge of varied areas and the willingness to engage in commerce not just across geographic areas but cross culturally and environmentally as well *Doing Business in Latin America* offers an in depth look at a complex region integrating practitioners and scholars ideas to examine business conducted in Latin America through the lens of international business and globalization The book introduces discusses and explains in detail the historical economic cultural political and technological impacts of globalization and business conduct in Latin American countries It also considers the contemporary business environment of the area looking at how current country and regional factors have affected the process of starting and operating businesses Finally it looks forward to the emerging trends that portend the future of business in these countries With its combination of contemporary analysis and historical discussion this book is a vital tool to all scholars and practitioners with an interest in

the opportunities offered by the current Latin American business environment The Global Development Of Policy Regimes To Combat Climate Change Alex Bowen, Nicholas Stern, John Whalley, 2014-04-01 The year 2015 will be a landmark year for international climate change negotiations Governments have agreed to adopt a universal legal agreement on climate change at the 21st Conference of Parties COP21 to the United Nations Framework Convention on Climate Change UNFCCC in Paris in 2015 The agreement will come into force no later than 2020 This book focuses on the prospects for global agreement how to encourage compliance with any such agreement and perspectives of key players in the negotiations the United States India China and the EU It finds that there is strong commitment to the established UN institutions and processes within which the search for further agreed actions will occur There are already a myriad of local and regional policies that are helping to reduce greenhouse gas emissions and build mutual confidence However the chapters in the book also highlight potential areas of discord For instance varying interpretations of the common but differentiated responsibilities of developing countries agreed as part of the UNFCCC could be a major sticking point for negotiators When combined with other issues such as the choice of consumption or production as the basis for mitigation commitments the appropriate time frame and base date for their measurement and whether level or intensity commitments are to be negotiated the challenges that need to be overcome are considerable The authors bring to bear insights from economics public finance and game theory Risking Capitalism Susanne Soederberg, 2016-10-28 This volume examines diverse meanings and practices of risk management ranging from austerity to climate change to housing and debt The authors investigate the relationship between shifts in contemporary capitalism and the ways in which neoliberal forms of risk management have emerged been reproduced and normalized and transformed historically **Managing Digital Enterprise** Jun Xu, 2014-10-10 This book describes the setup of digital enterprises and how to manage them focusing primarily on the important knowledge and essential understanding of digital enterprise management required by managers and decision makers in organizations It covers ten essential knowledge areas of this field Foundation of Digital Enterprise Technology Foundation and Talent Management for Digital Enterprise Digital Enterprise Strategy Planning and Implementation B2C Digital Enterprise E tailing B2C Digital Enterprise E Services B2B Digital Enterprise and Supply Chain Digital Platforms Digital Marketing and Advertising Digital Payment Systems Mobile Enterprise Overall this text provides the reader with the basics to understand the rapid development of digitization facilitated by the dramatic advancements in digital technologies extensively connected networks and wider adoption of computing devices especially mobile devices as more and more organizations are realizing the strategic importance of digitization e g sustainable growth of the organization competitive advantage development and enhancement and are embarking on digital enterprise *Impact Assessment: IFPRI 2020 conference "Leveraging Agriculture for Improving Nutrition and Health"* Paarlberg, Robert, 2012-12-18 The IFPRI 2020 Conference on Leveraging Agriculture for Improving Nutrition and Health was held in New Delhi India February 10 12 2011 and attracted more than

900 attendees Conference activities included 12 plenary sessions 15 parallel sessions 14 side events an ongoing knowledge fair with more than 25 exhibit booths and tables six informal discussion groups and roughly 30 rapid fire presentations during coffee breaks Assessing the impact of this Conference is a task complicated by multiple issues such as assessment coverage and impact attribution The assessment methods used here include surveys of conferees Internet searches website and literature searches and extensive personal interviews Distinctions are drawn between short term and medium term impacts and also among impacts on individuals on institutions and on professional discourse Impacts on individual conferees were measured through pre and post Conference surveys and telephone interviews The impacts on the substantive views of those who attended the Conference were found to be small Most conferees 75 percent came to Delhi already convinced that a cross sector approach to agriculture nutrition and health ANH was appropriate At the individual level the Conference impacted motivation and empowerment more than beliefs The Conference gave those who attended new information new networking opportunities and various positioning advantages that made them more effective within their own institutions back home Such advantages were primarily important in the short term Regarding impacts on institutions the 2020 Conference produced important but mixed results Direct impacts on national governments were small in part because ministerial structures and bureaucratic routines in governments are traditionally segregated by sector and resistant to anything more than incremental change Direct impacts from the 2020 Conference on private companies and NGOs were also modest but for a different reason these institutions are inherently comfortable working across sectors so most of the private companies and NGOs participating in the Conference felt little need to change The strongest institutional impacts from the Conference came within a category of organizations that wanted to integrate nutrition with agriculture but were unsure of how or how quickly to move forward These institutions included the CGIAR itself as it moved to create the CGIAR Research Program on Agriculture for Nutrition and Health CRP4 the United Nations Food and Agriculture Organization FAO as it responded to an internal evaluation of its own work in nutrition and a number of donor institutions including most prominently the UK's Department for International Development DFID which used the materials and policy energy generated by the 2020 Conference to help guide and push a major expansion of bilateral funding into the ANH arena These DFID responses alone were a large enough payoff to mark the Conference a success A third significant impact from the Conference was on professional discourse The 2020 Conference helped change the conversation about agriculture and food security by boosting the frequency of reference to cross sector impacts on both nutrition and health Impact measurement becomes difficult here because the Conference was not the only initiative highlighting cross sector linkages underway Nonetheless the average number of Google Internet hits per search for the phrase linking agriculture nutrition and health increased from 9 288 in the pre Conference period to 13 508 in the immediate post Conference period of March May 2011 Searches of organization websites revealed that 18 of 21 of the sites had more links to agriculture nutrition and health issues

immediately following the Conference compared to just before and 20 of 21 had an even higher number of such links one year later in July 2012 The most obvious limitation on impact has been at the level of national government policy excluding donor policies Partly this reflects attendance Only 19 percent of those who attended the 2020 Conference were government officials compared to 41 percent who came from research institutes or universities Yet even where Conference impacts on governments might have seemed probable they have proved so far to be mostly tentative or modest The government of Malawi co hosted its own version of the 2020 Conference in Lilongwe in September 2011 While this was an important step the Conference was donor suggested and donor funded and senior officials from the Ministry of Health were unable to attend In Uganda the 2020 Conference helped sustain an effort to mainstream nutrition within the Ministry of Agriculture However this effort was underway before the Conference and parallel efforts from USAID WFP and FAO did as much to sustain it In China the leadership of the State Food and Nutrition Consultation Committee was briefed on 2020 Conference materials which may have helped to establish a new but already approved food safety and nutrition development institute at the Chinese Academy of Agricultural Sciences CAAS Since Chinese leaders had been unable to attend the Conference itself impacts in the country also depended heavily on a separate outreach effort by IFPRI leadership In India national officials and researchers and IFPRI made concerted efforts to use the Conference to shape language in the new 12th Five Year Plan 2012 16 While some engaged in this effort claimed progress in that direction nothing definitive has emerged and in India it appears that little has changed in the traditional separation between the agriculture ministry and the nutrition and health sectors The Conference s largest impacts within India were felt at the individual level at the level of discourse or within some state administrations not within national governmental institutions What can one reasonably expect when looking for impacts from a single international Conference In the case of the 2020 Conference in Delhi where the goal was to change the way individuals and institutions were thinking about ANH issues and considering them in professional discourse measurable progress was made toward each of these goals in both the short term and the medium term IFPRI took a risk by designing the Delhi Conference to challenge traditional paradigms This assessment shows that in both the short term and medium term the risk has been rewarded
