Partisan Dealignment and the Blue-Collar Electorate in France Sally Marthaler,2020-01-02 This book explores partisan dealignment in France between 1978 and 2012 with a particular focus on the blue collar electorate and its relationship with the political parties of the established left the Socialist Party or Parti socialiste and the Communist Party or Parti communiste fran ais It highlights the distinctiveness of blue collar partisanship in a context of significant political social and economic change and compares it with patterns of partisanship in the wider electorate The voter party relationship is self evidently a bilateral one which can be modified both on the demand side because voters change and on the supply side

because parties change Four factors are identified as playing a key role in partisan dealignment value change policy convergence political sophistication and political trust There is compelling evidence that while each of these makes a contribution it is changes in the behaviour of the parties that are driving partisan dealignment among blue collar workers in France
