World Magazine ,2009-01 Asteroids IV Patrick Michel,Francesca E. DeMeo,William F. Bottke,2015-12-31 Over the past decade asteroids have come to the forefront of planetary science Scientists across broad disciplines are increasingly recognizing that understanding asteroids is essential to discerning the basic processes of planetary formation including how their current distribution bespeaks our solar system s cataclysmic past For explorers the nearest asteroids beckon as the most accessible milestones in interplanetary space offering spaceflight destinations easier to reach than the lunar surface For futurists the prospects of asteroids as commercial resources tantalize as a twenty first century gold rush albeit with far greater challenges than faced by nineteenth century pioneers For humanity it is the realization that asteroids matter It is not a question of if but when the next major impact will occur While the disaster probabilities are thankfully small fully cataloging and characterizing the potentially hazardous asteroid population remains unfinished business Asteroids IV sets

the latest scientific foundation upon which all these topics and more will be built upon for the future Nearly 150 international authorities through more than 40 chapters convey the definitive state of the field by detailing our current astronomical compositional geological and geophysical knowledge of asteroids as well as their unique physical processes and interrelationships with comets and meteorites Most importantly this volume outlines the outstanding questions that will focus and drive researchers and students of all ages toward new advances in the coming decade and beyond **The Age Curve**

Kenneth W. GRONBACH, 2008-06-25 For years marketers have held on to unwavering beliefs that have dictated how they market to their consumers But the hard truth is that the changes we see in marketing and business are based on one undeniable factor the size of the generations we are selling to As each generation ages what they buy and how much they buy will change Each product and service has a best customer that sustains a business As these customers grow up the smartest marketers will stay ahead of them and their money In The Age Curve marketing guru Kenneth Gronbach shows executives and entrepreneurs how to anticipate this wave of predictable demand and ride it to success Gronbach reveals how our largest generations the Baby Boomers and Generation Y are redefining how we market and how businesses can anticipate their needs more effectively Complete with entertaining examples of companies like Apple who have perfected their strategies for building a loyal customer base as well as those who haven't Levi Strauss and Honda Motorcycle this book will show readers how to determine their best customers how successful companies are earning the loyalty of Generation Y and cultivating allegiance to their products for years to come why Generation X is a much less valuable market than any of us have been led to believe and much more Both shocking and compelling The Age Curve will change the way companies look at their customers and how they market to them
