**The Islamic Marriage Contract** Asifa Quraishi, Frank E. Vogel, 2022-10-07 It is often said that marriage in Islamic law is a civil contract not a sacrament If this is so this means that the marriage contract is largely governed by the same rules as other contracts such as sale or hire But at the same time marriage is a profound concern of the Islamic scriptures of Qur'an and Sunna and thus at the very core of the law and morality of Islam and of the individual familial and social life of Muslims This volume collects papers from many disciplines examining the Muslim marriage contract Articles cover doctrines as to marriage contracts e.g. may a wife stipulate monogamy historical instances e.g. legal advice from thirteenth century Spain comparisons with Jewish and canon law contemporary legal and social practice and projects of activists for women worldwide Demonstrating a new and powerful focus for comparative and historical inquiries into Islamic law and social practices this book marks a fresh point of departure for the study of Muslim women The American and English Encyclopædia of Law:

**Women of the English Nobility and Gentry, 1066-1500** Jennifer Ward, 2013-01-01 While there is increasing interest in the lives of medieval women the documentary evidence for their activities remains little known This book provides a collection of sources for an important and influential group of women in medieval England and examines changes in their role and activities between 1066 and 1500 For most noble and gentry women early marriage led to responsibilities for family and household and in the absence of their husbands for the family estates and retainers Widowhood enabled them to take control of their affairs and to play an independent part in the local community and sometimes further afield Although many women's lives followed a conventional pattern great variety existed within family relationships and individuality can also be seen in religious practices and patronage Piety could take a number of different forms whether a woman became a nun a vowess or a noted philanthropist and benefactor to religious institutions This volume provides a broad ranging and accessible coverage of the role of noble women in medieval society It highlights the significant role played by these women within their families households estates and communities    **The Law Journal for the Year 1832-1949**, 1863    **Ashgate Critical Essays on Women Writers in England, 1550-1700** Mihoko Suzuki, 2020-07-24 Until recently Anne Clifford has been
