Race in North America Audrey Smedley, Brian D. Smedley, 2012 In Race in North America Audrey Smedley shows that race is a cultural invention that has been used variously and opportunistically since the eighteenth century Race in its origin was not a product of science but of a folk ideology reflecting a new form of social stratification and a rationalization for inequality among the peoples of North America New coauthor Brian Smedley joins Audrey Smedley in updating this renowned and groundbreaking text The fourth edition includes a compelling new chapter on the health impacts of the racial worldview as well as a thoroughly rewritten chapter that explores the election of Barack Obama and the evolving role of race in American political history This edition also incorporates recent findings on the human genome and the implications of genomics Drawing on new understandings of DNA expression the authors scrutinize the positions of contemporary race scientists who maintain that race is a valid biological concept Provided by publisher The Cultures Within Ancient Greek Culture Carol Dougherty, Leslie Kurke, 2003-10-02 Sample Text The Philosophy of Sex Raja Halwani, Alan Soble, Sarah Hoffman, Jacob M. Out of Eden Paul W. Kahn,2024-11-01 In *Out of Eden* Paul W Kahn offers a philosophical meditation on the problem of evil He uses the Genesis story of the Fall as the starting point for a profound articulation of the human condition Kahn shows us that evil expresses the rage of a subject who knows both that he is an image of an infinite God and that he must die Kahn s interpretation of Genesis leads him to inquiries into a variety of modern forms of evil including slavery torture and genocide Kahn takes issue with Hannah Arendt s theory of the banality of evil arguing that her view is an instance of the modern world s lost capacity to speak of evil Psychological social and political accounts do not explain evil as much as explain it away Focusing on the existential roots of evil rather than on the occasions for its appearance Kahn argues that evil originates in man s flight from death He urges us to see that the opposite of evil is not good but love while evil would master death love would transcend it Offering a unique perspective that combines political and cultural theory law and philosophy Kahn here continues his project of advancing a political theology of modernity
