Words are Sweet ,1982 Blue Ridge Folklife Ted Olson,2010-02-11 In the years immediately preceding the founding of the American nation the Blue Ridge region which stretches through large sections of Virginia and North Carolina and parts of surrounding states along the Appalachian chain was the American frontier In colonial times it was settled by hardy independent people from several cultural backgrounds that did not fit with the English dominated society The landless the restless and the rootless followed Daniel Boone the most famous of the settlers and pushed the frontier westward The settlers who did not migrate to new lands became geographically isolated and politically and economically marginalized Yet they created fulfilling lives for themselves by forging effective and oftentimes sophisticated folklife traditions many of which endure in the region today In 1772 the Blue Ridge was the site of the Watauga Association often cited as the first free and democratic non native government on the American continent In 1780 Blue Ridge pioneers helped win the Revolutionary War for the patriots by defeating Patrick

Ferguson's army of British loyalists at the Battle of Kings Mountain. When gold was discovered in the southernmost section of the Blue Ridge, America experienced its first gold rush and the subsequent tragic displacement of the region's aboriginal people. Having been spared by the coincidence of geology and topography from the more environmentally damaging manifestations of industrialization, coal mining and dam building, the Blue Ridge region still harbors scenic natural beauty as well as vestiges of the earliest cultures of southern Appalachia. As it describes the most characteristic and significant verbal, customary and material traditions, this fascinating fact-filled book traces the historical development of the region's distinct folklife.

The Twin Souls: Books 1 & 2 of the Eternity Series Holly Newhouse, 2014-11-23. A person can have many soul mates in a lifetime, but each person has only one twin soul in each life. This belief, taught to me by my grandmother, is one that has always filled me with wonder. As a young child, she often sat next to me in front of the fire, blazing brightly in our tipi and spoke of the legend of the twin souls. The legend is as old as creation itself. It is said that as the creator was making human beings, he was surrounded by souls to place in them. The creator decided to take a single soul and split it in half, creating twin souls. He then took the two twin souls and touched them together as light as a butterfly's kiss. The twin souls were then separated and placed respectively into man and woman. The creator lightly touched them together so that when they meet one day, they will recognize the other's soul as their twin. This is because they have already met at the beginning of creation and will immediately feel as if they have known each other forever. I am Sumanitu, taka kici mani wiya, which means she who walks with the wolf and lives with my elderly grandmother, Shetawahki, who is a revered elder and medicine woman of the Lakota Sioux Nation and part of the Roaming Wolf Sioux Tribe.
