Contributions to Econometrics: Volume 1 John Denis Sargan, 1988-06-16 **Advanced Methods in Statistics, Data Science and Related Applications** Matilde Bini, Antonio Balzanella, Lucio Masserini, Rosanna Verde, 2024-10-16 This book contains a selection of the improved contributions submitted by participants at the conference of the Italian Statistical Society SIS 2022 held in Caserta 22-24 June 2022. The scientific community of Italian statistics, which gathers around the SIS, is paying particular attention to the development of statistical techniques increasingly oriented toward the processing of large data, mainly of complex data. The main goal is to provide the analysis of the data and the interpretability of the obtained results with a view to decision support and the reliability of the data outcomes. The aim of this volume is to show some of the most relevant contributions of statistical and data analysis methods in preserving the quality of the information to be processed, especially when it comes from different, often non-official sources, as well as in the extraction of knowledge from complex data, textual, network, unstructured, and multivalued, and in the explicability of results. Data Science today represents a broad domain of knowledge development from data where statistical and data analysis methods can make an important contribution in the different domains where data management and processing are required. This volume is addressed to researchers but also to Ph.D. and M.Sc. students in the field of Statistics and Data Science to acquaint them with some of the most recent developments towards which statistical research is orienting in prevalence in Italy.

Uncovering new insight and historical information from extensive primary and secondary sources, Uayan presents a rich and previously unacknowledged heritage and support from four American mission organisations during the US occupation from 1898-1946. The seeds sown amongst Chinese communities across the Philippines resulted in indigenous churches that took differing journeys to full independence and now are also bearing fruit in missionary activity in South Fujian, China. This book is an important contribution towards a global church history, acknowledging the work of the Holy Spirit in establishing and building up the church of Jesus Christ among the nations.
