Thutmose III and Hatshepsut, Pharaohs of Egypt Aidan Dodson, 2025-02-18 An innovative account of the lives and times of the warrior king Thutmose III and the female pharaoh Hatshepsut by renowned Egyptologist Aidan Dodson Thutmose III and Hatshepsut are among the best known figures in Egyptian history Thutmose has been called the Napoleon of ancient Egypt during whose reign Egypt's armies penetrated deep into northern Syria and consolidated Egyptian dominion over much of Sudan Hatshepsut one of the handful of female pharaohs also took to the battlefield but is best known today for a great trading expedition down the Red Sea coast to the mysterious land of Punt At first Hatshepsut served simply as regent for her young nephew stepson Thutmose but subsequently the two shared the throne of Egypt as co pharaohs for over a decade Later as sole king Thutmose devoted much of the rest of his life to military matters and large scale building works continuing the work of Hatshepsut that created much of the core of the great temple of Karnak During the very last years of his life Thutmose launched an attack on the memory of Hatshepsut with most of her images destroyed Yet some four centuries later Thutmose III and Hatshepsut were still

remembered together as great figures of the past whose conception of pharaonic kingship served as the model for later rulers into the eighth century BC This book illustrated in full color traces what we know about the lives and times of Thutmose and Hatshepsut and the monuments they built to guarantee their afterlives It then explores their posthumous reputations in ancient times and ends with the story of how the two pharaohs emerged from the mists of time during the nineteenth century AD to resume their places in history **The Oxford Handbook of Roman Egypt** Christina

bridge between communities of the living and the divine This is clearly evident in mythological stories that recount the creation of humans by deities within ancient and contemporaneous societies across a very broad geographical environment In certain circumstances parts of selected humans can become an ideal proxy for connecting with the supernatural as demonstrated by the cult of human skulls in Near Eastern Neolithic communities as well as the cult of relics of Christian saints from the early Christian era To go deeper into this topic this volume aims to undertake a cross cultural investigation of the role played by both humans and human remains in creating forms of relationality with the divine in antiquity Such an approach will highlight how the human body can be envisioned as part of a broader materialization of religious beliefs that is based on connecting different realms of materiality in the perception of the supernatural by communities of the living

BOOK JACKET The Abu Bakr Cemetery at Giza
Edward Brovanski, Tohfa Handoussa, 2021-07-31 The present volume reflects the work of the joint expedition of Cairo University and Brown University to record and publish the tombs uncovered on behalf of Cairo University by Prof Abdel Moneim Abu Bakr from 1949 through 1953 but never published The loss of field records and lack of a map of the site meant that new salvage excavation had to be undertaken A total of six seasons from 2000 2006 resulted in the clearing remapping and recording of the monuments in the cemetery Abu Bakr Cemetery is of particular interest because the majority of mastaba tombs belong to relatively low ranking individuals Thus they have the potential to shed light on the social status of Egypt's working classes
