Leithwood,Pat McAdie,Nina Bascia,Anne Rodrigue,2006-04-28 Empower students to reach new levels of thinking through teaching for deep understanding How do teachers successfully bridge the chasm between large numbers of very specific educational standards and deep understanding of important ideas This well researched text is based on the collaborative work between researchers and school practitioners to help answer this fundamental question The authors have drawn from the most up to date research to help teachers curriculum developers and school leaders discover how to implement and promote learner centered quality teaching strategies that encourage students understanding Organized into five parts this text systematically uncovers how to Advance student learning using leading edge research on powerful forms of instruction Foster metacognition in students and encourage them to take control of their own learning Extend learning from academic thinking to real world application across all disciplines Learn how to instill a culture of deep understanding among students while still meeting specific achievement standards found in most district and state curricula This timely and accessible resource reveals how rethinking school curriculum and teaching for deeper knowledge transfer can help students take control of their own learning **Common School Education and Teachers World** ,1893 **Patient-centered Medicine**

Moir Stewart,2003 Divided into four parts this volume comprehensively covers the evolution of patient centered care the six interactive components of the patient centered clinical method teaching and learning and research including findings and reviews It explains the basis and development of the clinical method *The Skeptical Visionary* Seymour Bernard

Sarason,2003 Seymour Sarason in the words of Carl Glickman is one of America s seminal thinkers about public education

For over four decades he has been a voice of much needed skepticism about our plans for school reform teacher training and educational psychology Now for the first time Sarason's essential writings on these and other issues are collected together offering student and researcher alike with the range depth and originality of Sarason's contributions to American thinking on schooling As we go from debate to debate on issues such as school choice charter schools inclusive education national standards and other problems that seem to drag on without solution Sarason's critical stance on the folly of many of our attempts to fix schools has always had at the center a concern for the main players in our educational institutions the students the teachers and the parents Any plans that cannot account for their well being are doomed to failure And in the face of such failure the clarity of Sarason's vision for real educational success is a much needed antidote to much of the rhetoric that currently passes for substantial debate A wide ranging and comprehensive selection of Sarason's most significant writings *The Skeptical Visionary* should find a prized space on any student's or teacher's bookshelf

Author note
Robert Fried is Associate Professor in the School of Education at Northeastern University and is the author of *The Passionate Teacher A Practical Guide* and *The Passionate Learner How Teachers and Parents Can Help Children Reclaim the Joy of Discovery*

Seymour Sarason is Professor Emeritus in the Department of Psychology at Yale University He is the author of over forty books and is considered to be one of the most significant researchers in education and educational psychology in the country
