Narrative and Critical History of America: English explorations and settlements in North America, 1497-1689. [c1884 Justin Winsor,1884 **Narrative and Critical History of America: English Explorations and Settlements in North America 1497-1689** Various Authors,2020-09-28

WE derive our rights in America says Edmund Burke in his Account of the European Settlements in America from the discovery of Sebastian Cabot who first made the Northern Continent in 1497 The fact is sufficiently certain to establish a right to our settlements in North America If this distinguished writer and statesman had substituted the name of John Cabot for that of Sebastian he would have stated the truth John Cabot as his name is known to English readers or Zuan Caboto as it is called in the Venetian dialect the discoverer of North America was born probably in Genoa or its neighborhood His name first appears in the archives of Venice where is a record under the date of March 28 1476 of his naturalization as a citizen of Venice after the usual residence of fifteen years He pursued successfully the study of cosmography and the practice of navigation and at one time visited Arabia where at Mecca he saw the caravans which came thither and was told that the spices they brought were received from other hands and that they came originally from the remotest countries of the east Accepting the new views as to the roundness of the earth as Columbus had done he was quite disposed to put them to a practical test With his wife who was a Venetian woman and his three sons he removed to England and took up his residence at the maritime city of Bristol The time at which this removal took place is uncertain In the year 1495 he laid his proposals before the king Henry VII who on the 5th of March 1495 6 granted to him and his three sons their heirs and assigns a patent for the discovery of unknown lands in the eastern western or northern seas with the right to occupy such territories and to have exclusive commerce with them paying to the King one fifth part of all the profits and to return to the port of Bristol The enterprise was to be at their own proper cost and charge In the early part of May in the following year 1497 Cabot set sail from Bristol with one small vessel and eighteen persons principally of Bristol accompanied perhaps by his son Sebastian and after sailing seven hundred leagues discovered land on the 24th of June which he supposed was in the territory of the Grand Cham The legend prima tierra vista was inscribed on a map attributed to Sebastian Cabot composed at a later period at the head of the delineation of the island of Cape Breton On the spot where he landed he planted a large cross with the flags of England and of St Mark and took possession for the King of England If the statement be true that he coasted three hundred leagues he may have made a periplus of the Gulf of St Lawrence returning home through the Straits of Belle Isle On his return he saw two islands on the

starboard but for want of provisions did not stop to examine them He saw no human beings but he brought home certain implements and from these and other indications he believed that the country was inhabited He returned in the early part of August having been absent about three months The discovery which he reported and of which he made and exhibited a map and a solid globe created a great sensation in England The King gave him money and also executed an agreement to pay him an annual pension charged upon the revenues of the port of Bristol He dressed in silk and was called or called himself the Great Admiral Preparations were made for another and a larger expedition evidently for the purpose of colonization and hopes were cherished of further important discoveries for Cabot believed that by starting from the place already found and coasting toward the equinoctial he should discover the island of Cipango the land of jewels and spices by which they hoped to make in London a greater warehouse of spices than existed in Alexandria

Translated Poe Emron Esplin, Margarida Vale de Gato, 2014-10-23 Few if any U S writers are as important to the history of world literature as Edgar Allan Poe and few if any U S authors owe so much of their current reputations to the process of translation Translated Poe brings together 31 essays from 19 different national literary traditions to demonstrate Poe s extensive influence on world literature and thought while revealing the importance of the vehicle that delivers Poe to the world translation Translated Poe is not preoccupied with judging the quality of any given Poe translation nor with assessing what a specific translation of Poe must or should have done Rather the volume demonstrates how Poe s translations constitute multiple contextual interpretations testifying to how this prolific author continues to help us read ourselves and the world s we live in The examples of how Poe s works were spread abroad remind us that literature depends as much on authorial creation and timely readership as on the languages and worlds through which a piece of literature circulates after its initial publication in its first language This recasting of signs and symbols that intervene in other cultures when a text is translated is one of the principal subjects of the humanistic discipline of Translation Studies dealing with the products functions and processes of translation as both a cognitive and socially regulated activity Both literary history and the history of translation benefit from this book s focus on Poe whose translated fortune has helped to shape literary modernity in many cases importantly redefining the target literary systems Furthermore we envision this book as a fountain of resources for future Poe scholars from various global sites including the United States since the cases of Poe s translations both exceptional and paradigmatic prove that they are also levers that force the reassessment of the source text in its native literature

Empresses and Queens in the Courtly Public Sphere from the 17th to the 20th Century Marion Romberg, 2022-02-22 This book analyzes the evolving interaction between court and media from an understudied perspective Eight case studies focus on different European Empress consorts and Queen regnants from the seventeenth to the twentieth centuries using a comparative cross media and cross period approach The volume addresses a multitude of questions ranging from how dynastic women achieved public prominence through their portraits how their faces and bodies were moulded and rearticulated to fit varying expectations in the courtly public sphere and the degree to which they as female actors engaged with or had agency within the processes of production and reception In particular two types of female rulership and their relationship to diverse media are contrasted and lesser known and under researched dynastic women are spotlighted Contributors Christine Engelke Anna Fabiankowitsch Inga Lena ngstr m Grandien Titia Hensel Andrea Mayr Alison McQueen Marion Romberg and Alison Rowley *Edgar Allan Poe* John Henry Ingram, 1891 **The Celebrity Monarch** Olivia Gruber Florek, 2022-11-18 The Celebrity Monarch argues that portraits of Empress Elisabeth of Austria 1837 1898 shaped both modern female portraiture and celebrity Close study of portraits of Elisabeth renowned as the most beautiful woman in Europe along with her private collection of celebrity photography reveals her agency in shaping her own representation and the significance of her construction for modern Viennese artists and the emerging phenomenon of celebrity **Complete Poems** Edgar Allan Poe, 2000 Containing more than three hundred poems including nearly a hundred previously unpublished works this unique collection showcases the intellectual range of Claude McKay 1889 1948 the Jamaican born poet and novelist whose life and work were marked by restless travel and steadfast social protest McKay s first poems were composed in rural Jamaican creole and launched his lifelong commitment to representing everyday black culture from the bottom up Migrating to New York he reinvigorated the English sonnet and helped spark the Harlem Renaissance with poems such as If We Must Die After coming under scrutiny for his communism he traveled throughout Europe and North Africa for twelve years and returned to Harlem in 1934 having denounced Stalin s Soviet Union By then McKay s pristine violent sonnets were giving way to confessional lyrics informed by his newfound Catholicism McKay s verse eludes easy definition yet this complete anthology vividly introduced and carefully annotated by William J Maxwell acquaints readers with the full transnational evolution of a major voice in twentieth century poetry

Literature as an Art Form - Evolving Intermedial Literary Landscape Asunción López-Varela Azcárate, 2025-07-02 Literature as an Art Form Evolving Intermedial Literary Landscape brings together sixteen scholarly contributions that explore literature s ongoing transformation across media cultures and technologies This anthology traces the dynamic interplay between literature and visual sonic performative and algorithmic forms ranging from illuminated manuscripts and oral traditions to digital texts and anime Rejecting the notion of literature as a fixed verbal art the chapters highlight its status as a transmedial evolving practice shaped by and shaping the environments in which it is situated Each essay

examines how literature migrates across modalities revealing it as a mutable process of technopoiesis. Together they offer a compelling vision of literature not as an autonomous artefact but as a fluid cultural phenomenon whose conditions of existence are inseparable from intermedial exchange. Apropos of Ideology Maria Calzada-Pérez, 2014-04-08 Today's worldwide ideological tensions have captured the interest of such varied disciplines as political science, anthropology, sociology, cultural studies and linguistics. There are two primary reasons why translation studies cannot ignore the ideological debate. Historically, translation has always been a site for ideological clashes. In addition, globalization is now setting off translational mechanisms even within monolingual artifacts and this calls for the expertise of translation scholars. Apropos of Ideology aims to contribute to the broader discussion of ideology by providing a forum for debating ideological issues in translation as well as by bringing together within the pages of a single volume different types of translation research informed by very different research ideologies. Adopting a wide definition of ideology as a set of ideas, beliefs and codes of behaviour that govern a community by virtue of being regarded as the norm, a number of translation scholars look into ideological phenomena as they impinge on the process of translation. They consider questions of politics but also reflect upon gender, sexuality, religion, secularity, technology and even the very discipline of translation studies. At the same time, the volume displays the kaleidoscopic complexity of the discipline while providing a strong argument that such diversity of perspectives is highly desirable. Contributors include Maria Tymoczko, Rosemary Arrojo, Christiane Nord, Keith Harvey, Peter Fawcett, Ma Carmen, Africa Vidal, Christina Schffner, David Katan, Francesco Straniero, Sergio and Sehnaz Tahir.

Anthologizing Poe Emron Esplin, Margarida Vale de Gato, 2020-08-06 This collection explores how anthologizers and editors of Edgar Allan Poe play an integral role in shaping our conceptions of Poe as the author we have come to recognize, revere and critique today. In the spheres of literature and popular culture, Poe wields more global influence than any other US author. This influence, however, cannot be attributed solely to the quality of Poe's texts or to his compellingly tragic biography. Rather, his continued prominence as a writer owes much to the ways that Poe has been interpreted, portrayed and packaged by an extensive group of mediators ranging from anthologizers, editors, translators and fellow writers to literary critics, filmmakers, musicians and illustrators. In this volume, the work of presenting Poe's texts for public consumption becomes a fascinating object of study in its own right, one that highlights the powerful and often overlooked influence of those who have edited, anthologized, translated and adapted the author's writing over the past 170 years. From Islands to Portraits Sergio Perosa, 2000 Throughout the long course of literature, islands have accumulated uncanny connotations of death together with peculiarities of linguistic definition and expression. Since the age of discovery, after the Caribbean Islands, America itself and later the archipelagos and atolls in the Pacific became known to travellers and conquistadores, islands have been sought, searched, explored and physically possessed as women. Cultural recognition takes the form of sexual and physical possession. Venus was born from the sea and is identified with an island. These are the themes of the first two
