Teaching Primary English in Australia Eve Bearne, David Reedy, Paul Gardner, Yvonne Sawers, 2023-12-11 This first Australian edition of *Teaching Primary English* has been updated and adapted to reflect the Australian sociocultural and educational context. This text provides a comprehensive evidence-informed introduction to teaching and learning English in the primary school classroom. New content refers to the Australian English Curriculum and incorporates Aboriginal and Torres Strait Islander perspectives and literacy perspectives relevant to the Asia Pacific region as well as the broader international context. This edition also includes a new section devoted to visual literacy, critical literacy and multimodality. Teaching advice and ideas are supported by practical examples linked to video clips filmed in real schools, reflective activities, observational tasks and online resources. Each section includes suggestions for great children's literature and offers assessment advice and support for planning for diversity and special educational needs. Drawing on the very latest research and theory supported by practical examples and guidance, this is an essential resource for pre-service teachers as they develop subject knowledge and the skills and confidence to deliver effective and engaging classroom practice.

Creativity and Children's Literature Marianne Saccardi, 2014-07-31 Today's students need to be able to do more than score well on tests; they must be creative thinkers and problem solvers. The tools in this book will help teachers and parents start students on the path to becoming innovative, successful individuals in the 21st-century workforce. The children in classrooms today will soon become adult members of society; they will need to apply divergent thinking skills to be effective in all aspects of their lives, regardless of their specific occupation. How well your students meet complicated challenges and take advantage of the opportunities before them decades down the road will depend largely upon the kind of thinking they are trained and encouraged to do today. This book provides a game plan for busy librarians and teachers to develop their students' abilities to arrive at new ideas by utilizing children's books at hand. Following an introduction in which the author defines divergent thinking, discusses its characteristics and establishes its vital importance, chapters dedicated to types of literature for children such as fantasy, poetry and non-fiction present specific titles and relevant activities geared to fostering divergent thinking in young minds. Parents will find the recommendations of the kinds of books to read with their children and explanations of how to engage their children in conversations that will help their creative thinking skills extremely beneficial. The book also includes a case study of a fourth-grade class that applied the principles of divergent thinking to imagine innovative designs and come up with new ideas while studying a social studies/science unit on ecology.

Reading and Writing Pathways through Children's and Young Adult Literature Alicia Curtin, 2022-07-29 This thought-provoking book will provide masters students, teachers and researchers with a toolkit and theoretical framework for teaching literacy through children's literature. It features innovative ideas for developing student and teacher experiences with literature and popular culture texts in the classroom, providing practical examples and teaching aids throughout. Taking a collaborative approach, Curtin explores how teachers and learners can engage with literature and its authors for the development of

literacy in classroom practice Connecting reader and writer identities and worlds through interviews with and suggested classroom activities from authors themselves this text combines author teacher and learner perspectives in the development of creative pedagogies that extend understandings of literacy beyond reading writing and text Exploring fairy tales comic books and graphic novels children living in literature i e texts which portray children their lives and experiences popular culture young adult fiction and non fiction and digital texts such as blogs etc this text develops a sociocultural understanding of literacy as a lived and contextually dependent practice where meaning is derived through relationships between people settings and culture Different contexts for literacy are explored including reading and writing strategically to learn about literacy and literature widely for personal purposes and deeply to transform understanding Short 2011 This text will be an invaluable resource for teachers researchers or anyone interested in reading and writing stories The author interviews will also be of particular interest to older learners themselves as a way to develop their understanding of their own reading and writing practices Pedagogies can be adapted to any age group ranging from the early years to young adult
