Kukulska-Hulme, 2015-11-06 Mobile Learning: The Next Generation documents the most innovative projects in context-aware mobile learning in order to develop a richer theoretical understanding of learning in modern mobile-connected societies. These technologies detect a learner's presence in a particular place, the learner's history in that place, or in relation to other people and objects nearby, and adapt learning experiences accordingly, enabling and encouraging learners to use personal and social technologies to capture aspects of the environment as learning resources and to share their reactions to them. Mobile Learning and Higher Education Helen Crompton, John Traxler, 2018-01-02 Mobile Learning and Higher Education provides case studies of mobile learning in higher education settings to showcase how devices can transform learning at the undergraduate and graduate levels.
