101 Myths of the Bible Gary Greenberg, 2002-09-01 In his startling book Gary Greenberg exposes the reality behind the greatest story ever told Learn about the Egyptian myths and ancient folklore that survive in one of history s most sacred texts and discover how King David s bodyguard not David killed Goliath Noah s Ark did not land on Mount Ararat Samson did not pull down a Philistine temple There are at least two versions of the Ten Commandments The walls of Jericho were destroyed 300 years before Joshua arrived there Sodom and Gomorrah were mythical cities that never existed The story of Esther had nothing to do with the Jews of Persia And much much more 101 Myths of the Bible provides a new dimension of biblical studies for believers historians and anyone who has ever wondered about the facts behind the legends By looking deeper into history Greenberg shows that the true story makes the Bible more interesting than ever imagined Biblical Narrative and Palestine's History Thomas L. Thompson, 2014-09-11 Modern biblical scholarship s commitment to the historical critical method in its efforts to write a history of Israel has created the central and unavoidable problem of writing an objective and critical history of Palestine through the biblical literature with the methods of Biblical Archaeology Biblical Narrative and

Palestine's History brings together key essays on historical method and the archaeology and history of Palestine. The essays employ comparative and formalistic techniques to illuminate the allegorical and mythical in Old Testament narrative traditions from Genesis to Nehemiah. In so doing the volume presents a detailed review of central and radical changes in both our understanding of biblical traditions and the archaeology and history of Palestine. The study offers an analysis of Biblical narrative as rooted in ancient Near Eastern literature since the Bronze Age.

**The Discovery of Everything, the Creation of Nothing** Jim Robert Bader, 2011-07-25 The questions have been with us since the dim dark dusk of early humanity. Who are we? How did we get here? Who is in charge? In *The Discovery of Everything, the Creation of Nothing* author Jim Robert Bader communicates his personal philosophy on these age-old enigmas as they apply to modern society. Intended as a primer for the mind of the layman, *The Discovery of Everything, the Creation of Nothing* presents a manifesto of the soul that insists the truth is not only out there but easily accessible to anyone. Based on years of research and observation, Bader distills the complexities and addresses relevant topics from an everyman perspective by pondering the nature of the universe. He reflects on the thoughts and discoveries of others to bring knowledge to the common man. In *The Discovery of Everything, the Creation of Nothing* Bader offers a new way of understanding the world. He confronts old assumptions and he challenges the traditional way of thinking to better cope with and comprehend the nature of the world around us.

**The Myth of the Jewish Race** Alain F. Corcos, 2005 As a youth the author who had two Jewish grandparents was defined as a Jew by Vichy France; his parents however refused to register the family as Jews. In March 1944 Corcos and his brother fled to Spain and joined the Allied Forces in North Africa. States that antisemites consider Jewishness to be inherited and to embody inferior evil traits. This view is based on two false biological premises: that there are pure races of humans and that some races are superior to others. Rejects these premises by considering modern biology and Jewish history. The latter indicates that the Jews cannot be a race due to their lack of sexual isolation; diversity among Jews is a result of both intermarriage and proselytism. Sees the Spanish *limpieza de sangre* statutes and the Inquisition as precursors of Nazi racism. Observes that sometimes Jews have joined antisemites in accepting biological determinism. Intermarriage in countries such as China, India, and the USA has led to considerable biological diversity among Jews and to the reduction of diversity between Jews and non-Jews if such diversity existed at all. Stresses that if antisemites have worried about contamination of their race by the Jews, they have already missed the boat since Jews have mixed with non-Jews for many centuries.

Holloway, 2002 *The African Origin of Civilization* Cheikh Anta Diop, Mercer Cook, 2012-09-01 Now in its 30th printing, this classic presents historical, archaeological, and anthropological evidence to support the theory that ancient Egypt was a black civilization.

**The Age of Promiscuity** Doru Pop, 2018-11-15 This book presents an original and engaging look at contemporary popular culture, opening with the provocative idea that this is a day and age of complete exhaustion of ideas, images, stories, and myths. Questioning the effects of content recycling in cinema and other media, the

author further elaborates on the repurposing of cultural junk the reassembling of narratives and myths The thought provoking hypothesis proposed in this research is that we have entered an age of cultural promiscuity By analyzing the mutations of myth making practices and connecting them with larger cultural manifestations the author explains these transformations as integral to the development of a myth illogical imagination Cinematic and mythological representations in mainstream Hollywood films have reached a point of amalgamation with no return which marks the beginning of a fourth age of representations where signs and meanings are manifested in illogical permutations This is more explicit in films that commingle aliens cowboys undead American presidents and zombie nazis joining together in the same narrative ghosts werewolves and vampires aggregating disjointed storylines and historical fake facts all coalesced in an orgy of empty burlesque and infantile masquerades This interdisciplinary research combines cultural studies film criticism art and myth interpretations bringing into the debate multiple concepts from related fields such as critical theory and media criticism The book also opens up to innovative approaches from a wide array of academic disciplines offering researchers students and those fascinated by the transformations happening in contemporary cinema an interpretative tool based on a revised dialectic approach The conclusion is that we are now victims of a zombie semiotics Meaning making in contemporary culture politics and aesthetics is dominated by a process of incessant desecration of significations specific to the total mishmash of representations analyzed here
