The Novels and Tales of Robert Louis Stevenson ... Robert Louis Stevenson, 1898

National Service Life Stories Peter Gurney, Matthew Grant, Joel Morley, 2025-01-25 National service was a defining feature for a generation of young men in post war Britain Around 2 3 million of them were called up between the end of World War Two and 1963 when conscription ended However national service was forgotten almost before it had ended a process aided subsequently by professional historians who have been reluctant to assess its longer term influence on British social and political history Based on original oral interviews with well over one hundred men this book explores the ways in which compulsory military participation reverberated in the memories of interviewees long beyond the end of conscription and how these early military experiences shaped their later life stories Unlike existing accounts that tend to rely on memoirs written by officers or else oral interviews that concentrate narrowly on the details of military service this study focusses instead on men from working class backgrounds and it situates national service in the context of the life course and the wider transformations that have occurred in British society since conscription ended In so doing the work shines new light on important areas of current scholarly interest and historiographical concern including the changing meaning and experience of class masculinity and citizenship as well as the complexities of popular memory

Untold Stories David Divita, 2024-01-31 Forgetting about Spain's civil war 1936-9 and subsequent dictatorship was long seen as a necessary safeguard for the democracy that emerged after General Francisco Franco's death in 1975 Since the early 2000s however public discussion of historical memory has awakened efforts to remember this past through the personal testimonies of Spaniards who experienced it firsthand Untold Stories expands accounts of twentieth century Spain by presenting an ethnography of an ignored population the impoverished men and women who fled Franco's dictatorship in the 1960s participating in a wave of labour migration to northern Europe Now in their eighties they were born around the time of the civil war and came of age during its repressive aftermath before leaving Spain as young adults The book features a community of such Spaniards who gather regularly at a senior centre on the outskirts of Paris Drawing on concepts from linguistic anthropology David Divita analyses conversational encounters recorded among the seniors to demonstrate how a turbulent past shapes mundane moments of social interaction in the present Documenting what is said as well as what is not Divita reveals through detailed textual analysis how silence can pervade the creation of social meanings such as belonging authority and legitimacy Untold Stories illuminates the impact of a harrowing historical period on some of Spain's most marginal citizens in the early years of the dictatorship
