literature to world literature World literature is marked by recurrent systematic features outcomes of the way that language and literature are at once the products of major change and its agents Cohen tracks these features from ancient times to the present distinguishing five main overlapping stages Within that framework he shows that European literatures ongoing internal and external relationships are most visible at the level of form rather than of thematic statement or mimetic representation European literature emerges from world literature before the birth of Europe during antiquity whose Classical languages are the heirs to the complex heritage of Afro Eurasia This legacy is later transmitted by Latin to the various vernaculars The uniqueness of the process lies in the gradual displacement of the learned language by the vernacular long dominated by Romance literatures That development subsequently informs the second crucial differentiating dimension of European literature the multicontinental expansion of its languages and characteristic genres especially the novel beginning in the Renaissance This expansion ultimately results in the reintegration of European literature into world literature and thus in the creation of today's global literary system The distinctiveness of European literature is to be found in these interrelated trajectories

launch new writers So what is the difference between a screenplay and a film novel Screenplays indicate solely what the audience is to see or hear on screen Film novels are short and take about as long to read as a feature film takes to watch The description dialogue and narration of a film novel can simply be lifted out and used as the description dialogue and voice over narration for a script The author has devised a fifteen week program starting from a one sentence pitch to the novel itself which includes filming a scene from your script novel He grounds the discussion of early film novels like *The Maltese Falcon* *Of Mice and Men* and *The Misfits* to provide historical and theoretical background while detailing the practical sequential approach for completing a short novel and script

**Stories and the Brain** Paul B.
