The Noble Quran Psychotherapy

G. Hussein Rassool

The Noble Quran Psychotherapy:

Islamic Psychology G. Hussein Rassool, 2023-03-23 *Islamic Psychology The Basics* is a jargon free and accessible introduction that explores psychology from an Islamic perspective and provides a foundation level overview of the fundamental principles and practices of Islamic psychology. The book introduces concepts, models, approaches, themes and theories you need to know to study the mind, soul and behaviour based on Islamic scripture. Offering an overview of Islamic psychology and what Islamic psychologists do, chapters address key topics including the history of the evolution of the science of the soul and the psychology of human behaviour and experiences. Rassool examines the concepts of the Fitrah, the Nafs, Self, the Aql (Intellect), the R (Soul), the Qalb (Heart) and the concept of Islamic healing and spiritual interventions. Other themes include the Quran and psychology, models and approaches in Islamic psychology, interpreting Islamic psychology for modern times and the contemporary scope of the practice of Islamic psychology. Outlining the challenges and solutions of the development of Islamic psychology and potential future trends and including features to aid learning, this is the ideal introductory book for students in Psychology, Islamic Psychology and Islamic Studies as well as professionals including counsellors and therapists and anyone interested in psychology from an Islamic perspective.

The Oxford Handbook of the History of Psychology: Global Perspectives David B. Baker, 2012. The science and practice of psychology has evolved around the world on different trajectories and timelines yet with a convergence on the recognition of the need for a human science that can confront the challenges facing the world today. Few would argue that the standard narrative of the history of psychology has emphasized European and American traditions over others but in today's global culture there is a greater need in psychology for international understanding. This volume describes the historical development of psychology in countries throughout the world. Contributors provide narratives that examine the political and socioeconomic forces that have shaped their nations' psychologies. Each unique story adds another element to our understanding of the history of psychology. The chapters in this volume remind us that there are unique contexts and circumstances that influence the ways in which the science and practice of psychology are assimilated into our daily lives. Making these contexts and circumstances explicit through historical research and writing provides some promise of greater international insight as well as a better understanding of the human condition.

ICIIS 2020 Asep Saepudin Jahar, Hamka Hasan, Didin Saepudin, Arif Zamhari, Yusuf Durachman, 2021-04-16. We are delighted to introduce the proceedings of the 3rd International Colloquium on Interdisciplinary Islamic Studies. It is an annual event hosted and organised by the Graduate School of State Islamic University of Syarif Hidayatullah Jakarta. It was a fully 2 days event 20-21 October 2020 by Virtual online mode with 3 keynote speakers: Prof Abdel Aziz Moenadil from the University of Ibn Thufail Maroko, Prof Wael Aly Sayyed from the University of Ain Syams Cairo Mesir and Assoc Prof Aria Nakissa Ph D from Harvard University. The proceeding consisted of 41 accepted papers from the total of 81 submission papers. The proceeding consisted of 6 main areas of Interdisciplinary Islamic Studies. They are

Islam and medicine Islam and Science and Technology Islam and Psychology Islam and Education Quran and Hadits and Islamic Studies with other various aspects All papers have been scrutinized by a panel of reviewers who provide critical comments and corrections and thereafter contributed to the improvement of the quality of the papers Research in Islamic studies and Muslim societies today also increasingly uses interdisciplinary methods and approaches In order to produce more objective findings the researchers looked at the need to combine several methods or approaches to an object of study so that they had additional considerations needed These additional considerations add a more comprehensive perspective In this way in turn they can come up with better findings Interdisciplinary Islamic studies dispute that Islam is monolithic militaristic and primarily Middle Eastern We strongly believe that ICIIS conference has become a good forum for all researcher developers practitioners scholars policy makers especially post graduate students to discuss their understandings of current processes and findings as well as to look at possibilities for setting up new trends in SDG and Islamic Interdisciplinary Studies We also expect that the future ICIIS conference will be as successful and stimulating as indicated by the contributions presented in this volume *Islamically Integrated Psychotherapy* Carrie York Al-Karam, 2018-07-01
