London Calling Rob Nixon, 1992-02-27 V S Naipaul stands as the most lionized literary mediator between First and Third World experience and is ordinarily viewed as possessing a unique authority on the subject of cross cultural relations in the post colonial era In contesting this orthodox reading of his work Nixon argues that Naipaul is more than simply an unduly influential writer He has become a regressive Western institution articulating a set of values that perpetuates political interests and representational modes that have their origin in the high imperial age Nixon uses Naipaul's travel writing to probe the core theoretical issues raised by cross cultural representation along metropolitan periphery lines With reference to economic theories of dependency he critiques the vision popularized by Naipaul of the post colonial world as divided between mimic and parasitic Third World nations on the one hand and on the other the benignly creative societies of the West

Sex Tourism in Thailand Ronald Weitzer, 2023-11-07 Honorable Mention 2024 Outstanding Book Award given by the American Society of Criminology's Division of International Criminology An in depth portrait of Thailand's billion dollar sex industry Thailand is known internationally as a popular sex tourism destination Yet despite its size and reputation remarkably little research has focused on the country's sex industry over the past two decades Based on original ethnographic data and other sources Sex Tourism in Thailand is an expansive yet nuanced study of diverse sex markets and their moral economies Ronald Weitzer shows that although some of the central pillars of Thailand's sex industry remain unaltered over the past four decades in other respects there has been a profound transformation In the sector oriented toward foreign visitors the number of sex businesses and independent operators has grown numerically and geographically customers are increasingly diverse in race and nationality paid sexual encounters are no longer confined to young Thai women and older white men transgender women comprise a significant share of the workforce and technological advances give participants more autonomy than ever before Sex Tourism in Thailand explores these developments in conjunction with related structural and experiential dimensions in an illuminating account of sexual commerce in Southeast Asia

Teaching Again Thomas S. Poetter, 2012-08-01 Teaching Again exposes the very human core of the teaching experience This book is not just about teaching English language arts it is about the heart and soul of the vocation that is teaching It is also not just about Tom Poetter the English teacher it is about every individual who has ever tried to educate whether that act has taken place in a classroom a church or synagogue a museum or at the kitchen table Teaching Again brings to life the dance of questions that vie for attention in the mind of a teacher How do I convince students that they want to learn to what I'm trying to teach How do I make them understand that this is really actually important to them And perhaps most important how do I get them to like me and my discipline in the process These are the questions that all good teachers ask themselves at the beginning middle and end of every single day of their professional lives Every moment of teaching is a human transaction and Tom brings us right into the middle of that transaction He allows the reader to see and hear and feel the
