The Mysteries of Udolpho Ann Ward Radcliffe, 1808 **The Mysteries of Udolpho** Ann Radcliffe, 2004-06 That will scarcely be possible said Emily, smiling as she followed the winding of the passage which opened into another gallery, and then Annette perceiving that she had missed her way while she had been so eloquently haranguing on ghosts and fairies, wandered about through other passages and galleries till at length, frightened by their intricacies and desolation, she called aloud for assistance. *The Mysteries Of Udolpho Vol. 2* Ann Radcliffe, 2023-07 Emily awakens to a beautiful scenery outside the castle but is alarmed to find the door to the secret passage closed. She suspects someone has been in her room and asks Montoni to move her to another room, but he dismisses her concerns. Throughout the day, Emily explores the castle and notices Montoni's companions, Cavigni and Verezzi. She becomes increasingly anxious about the arrival of Morano while Annette is captivated by Ludovico, a servant. Curiosity leads Emily to unveil a portrait, causing her to faint. Emily decides not to disclose what she saw to anyone. Tension fills the air during dinner, and they spot a group of soldiers passing by the castle. Anxious about her room, Emily stays up late and hears someone arriving at midnight. Annette confirms that it is Morano. Later, Emily awakens to find Morano in her bedroom, professing his love and urging her to escape with him. Emily refuses, and a confrontation between Morano and Montoni ensues. Morano is wounded, and Montoni accuses Emily of conspiring with Morano. Hurt and troubled, Emily realizes her aunt seems indifferent to the situation. **The Mysteries of Udolpho by Ann**

The Mysteries of Udolpho Ann Ward Radcliffe,2014-04-22 An excerpt of a review from The Monthly Review published in 1794 THE numerous mysteries of the plot are fully disclosed in this edition which is the conclusion and the reader is perfectly satisfied at finding villainy punished and steady virtue and persevering affection rewarded If there be any part of the story which lies open to material objection it is that which makes Valancourt Emily s lover fall into disgraceful indiscretions during her absence and into a temporary alienation of affection This in a young man of noble principles and exalted sentiments after such a long intimacy and such a series of incidents tending to give permanency to his passion and stability to his character we must think unnatural The performance would in our opinion have been more perfect as well as more pleasing if Du Pont Emily s unsuccessful admirer had never appeared and if Valancourt had been as Emily expected her deliverer from the Castle of Udolpho The story we apprehend might have been easily brought to its present termination on this supposition The embellishments of the work are highly finished The descriptions are rich glowing and varied they discover a vigorous imagination and an uncommon command of language and many of them would furnish admirable subjects for the pencil of the painter If the reader in the eagerness of curiosity should be tempted to pass over any of them for the sake of proceeding more rapidly with the story he will do both himself and the author injustice They recur however too frequently and consequently a similarity of expression is often perceptible Our readers may form some judgment of the writer s descriptive and poetical talents from the following specimen the scene of which is at Venice In the cool of the evening the party embarked in Montoni s gondola and rowed out upon the sea The red glow of sun set still touched the waves and

lingered in the west where the melancholy gleam seemed slowly expiring while the dark blue of the upper aether began to twinkle with stars Emily sat given up to pensive and sweet emotions The smoothness of the water over which she glided its reflected images a new heaven and trembling stars below the waves with shadowy outlines of towers and porticos conspired with the stillness of the hour interrupted only by the passing wave or the notes of distant music to raise those emotions to enthusiasm As she listened to the measured sound of the oars and to the remote warblings that came in the breeze her softened mind returned to the memory of St Aubert and to Valancourt and tears stole to her eyes The rays of the moon strengthening as the shadows deepened soon after threw a silvery gleam upon her countenance which was partly shaded by a thin black veil and touched it with inimitable softness Hers was the contour of a Madonna with the sensibility of a Magdalen and the pensive uplifted eye with the tear that glittered on her cheek confirmed the expression of the character The last strain of distant music now died in air for the gondola was far upon the waves and the party determined to have music of their own The Count Morano who sat next to Emily and who had been observing her for sometime in silence snatched up a lute and struck the chords with the finger of harmony herself while his voice a fine tenor accompanied them in a rondeau full of tender sadness To him indeed might have been applied that beautiful exhortation of an English poet had it then existed Strike up my master But touch the strings with a religious softness Teach sounds to languish through the night s dull ear Till Melancholy starts from oft her couch And Carelessness grows concert to attention After the remarks which we have already made we need scarcely add our recommendation of these interesting volumes to general readers
