The Myths of Technology Judith Burnett, Peter Senker, Kathy Walker, 2009 This book questions whether technologies are the rational tangible scientific forward thinking neutral objects they are so often perceived to be exploring instead how powerful mythic ideas about technologies drive our social understanding and our expectations of them Against a rising tide of information we encounter significant technological scientific and medical advances which promise to create an educated humane and equal world This book explores that promise deconstructing technologies to conclude that though they do afford us significant and empowering advances they remain largely cloaked in mystery and often promise more than they can deliver Contributors from diverse intellectual backgrounds and political and epistemological stances spanning sociology and psychosocial investigations innovation studies and scientists combine philosophical inquiry and empirical case studies to create a book which is at once provocative innovative and exciting in the challenges it poses

Innovation in Japan Keith Jackson, Phillipe Debroux, 2013-10-18 The Japanese economy has made a remarkable recovery from the so called Lost Decade of the 1990s This said demographic trends suggest that Japan will have to show remarkable powers of innovation if it is to continue to prosper in the global economy For around the turn of the last century texts published by prominent strategy analysts such as Michael Porter and colleagues were asking whether Japan could continue

to compete at all and in answering this question they not only gained significant global attention they also appeared to sound the death knell for strategic innovation in Japan This collection helps put the record straight It invites authors and editors of previous Routledge titles on the topic of Innovation in Japan to reflect on how things have moved on prominent scholars on Japanese innovation such as Martin Hemmert Cornelia Storz and Ruth Taplin all of whom appear in this collection It brings together fresh perspectives on Japanese style innovation from insiders and from outsiders from scholars and from practitioners all of whose combined contributions to this book update our understanding of how patterns of innovation in Japan are evolving and thus provide inspiration and guidance for managers and innovators worldwide

The Myths of Health Care Paola Adinolfi, Elio Borgonovi, 2017-10-25 This provocative appraisal unpacks commonly held beliefs about healthcare management and replaces them with practical strategies and realistic policy goals Using Henry Mintzberg's *Myths of Healthcare* as a springboard it reveals management practices that undermine care delivery explores their cultural and corporate origins and details how they may be reversed through changes in management strategy organization scale and style Tackling conventional wisdom about decision making cost effectiveness service quality and equity contributors fine tune concepts of mission and vision by promoting collaboration engagement and common sense The book's multidisciplinary panel of experts analyzes the most popular healthcare management myths among them The healthcare system is failing The healthcare system can be fixed through social engineering Healthcare institutions can be fixed by bringing in the heroic leader The healthcare system can be fixed by treating it more as a business Healthcare is rightly left to the private sector for the sake of efficiency The *Myths of Health Care* speaks to a large diverse audience scholars of all levels interested in the research in health policy and management graduate and under graduate students attending courses in leadership and management of public sector organization and practitioners in the field of health care

Dialectic of Sedimentation and Innovation Mabiala Justin-Robert Kenzo, 2009 One of the most important developments in the episteme of our time is the recognition that all being and all knowing are socially conditioned This recognition raises the question of subjective creativity Is creativity or innovation possible What is the locus of creativity Is it the subject or the structure of the structures of being of which the subject is part Any notion of creativity that takes seriously the condition of being is therefore bound to deal with the perennial issue of freedom and determinism *Dialectic of Sedimentation and Innovation* examines the contribution of Paul Ricoeur to this question for the purpose of theological consumption Ricoeur's philosophical reconstruction of the subject as self creates a space midway between the modern self positing subject and the postmodern deconstructed subject where reason rules but does not tyrannize It is from this space that he proposes a view of humanity that argues that to be human is to be homo voluntas homo lingua and homo capax *Dialectic of Sedimentation and Innovation* seeks to theologically appropriate these notions for Africa's quest for a new creative identity

Creative Rationality and Innovation Joelle Forest, 2018-01-03 This book urges us to be creative in our way of thinking about innovation Adopting an artificial

perspective the author emphasizes creative rationality a form of thought that encourages knowledge crossing and invites an adventurous transgression The question of how such a form of thought might be developed is addressed through a detailed examination of the educational system The book frees itself from many of the myths that surround innovation including the predominance of what the author calls the linear and hierarchical model

Science, Technology and Innovation Culture

Marianne Chouteau, Joelle Forest, Céline Nguyen, 2018-10-09 We are facing unprecedented challenges today For many of us innovation would be our last hope But how can it be done Is it enough to bet on the scientific culture How can technical culture contribute to innovation How is technical culture situated with regards to what we name collectively the culture of innovation It is these questions that this book intends to address
