Russo's seminal study *The Celluloid Closet* in 1981 much has been written about the representation of queer characters on screen. Until now, however, relatively little attention has been paid to how queer sexualities were portrayed in films from the silent and early sound period. By looking in detail at a succession of recently found films and revisiting others, Shane Brown examines images of male-male intimacy, buddy relationships, and romantic friendships in European and American films made prior to 1934, including *Different from the Others* and *All Quiet on the Western Front*. He places these films within their socio-political and scientific context and sheds new light on how they were intended to be viewed and how they were actually perceived. In doing so, Brown offers his readers a unique insight into a little-known area of early cinema, queer studies, and social history.

Performance

Assessment in Strength and Conditioning Paul Comfort, Paul A. Jones, John J. McMahon, 2018-10-09 It is an essential skill for any strength and conditioning coach to be able to reliably assess the physical performance of their athletes and communicate the results and their implications to performers and coaches alike. *Performance Assessment in Strength and Conditioning* is the first textbook to clearly and coherently suggest the most appropriate and reliable methods for assessing and monitoring athletes' performance, as well as including detailed sections on testing considerations and the interpretation and application of results. The book explores the full range of considerations required to reliably assess performance, including questions of ethics and safety, reliability and validity, and standardised testing. Before going on to recommend, through a comparison of field and laboratory-based techniques, the optimal methods for testing all aspects of physical performance, including injury risk, jump performance, sprint performance, change of direction and agility, strength, power, aerobic performance, and body composition. Closing with a section on interpreting, presenting, and applying results to practice, and illustrated with real-life case study data throughout, *Performance Assessment in Strength and Conditioning* offers the most useful guide to monitoring athlete performance available. It is an essential text for upper-level strength and conditioning students and practitioners alike.

Routledge Handbook of the Arab Spring Larbi Sadiki, 2014-12-17 The self-immolation of Mohammed Bouazizi in Tunisia in December 2010 heralded the arrival of the Arab Spring, a startling yet not unprecedented era of profound social and political upheaval. The meme of the Arab Spring is characterised by bottom-up change or the lack thereof, and its effects are still unfurling today. The *Routledge Handbook of the Arab Spring* seeks to provide a departure point for ongoing discussion of a fluid phenomenon on a plethora of topics, including contexts and contests of democratisation, the sweep of the Arab Spring, Egypt, women and the Arab Spring, agents of change and the technology of protest, impact of the Arab Spring in the wider Middle East, and further afield. Collating a wide array of viewpoints, specialisms, biases, and degrees of proximity and distance from events that shook the Arab world to its core, the Handbook is written with the reader in mind to provide students, practitioners, diplomats, policy makers, and lay readers with

contextualization and knowledge and to set the stage for further discussion of the Arab Spring **Twenty-fifth Meeting of the North Atlantic Assembly, Held at Ottawa, Canada, October 22 to October 27, 1979** United States.
