Grudin, 2017-10-20 This book explores Andy Warhol's creative engagement with social class During the 1960s as neoliberalism perpetuated the idea that fixed classes were a mirage and status an individual achievement Warhol's work appropriated images techniques and technologies that have long been described as generically American or middle class Drawing on archival and theoretical research into Warhol's contemporary cultural milieu Grudin demonstrates that these features of Warhol's work were in fact closely associated with the American working class The emergent technologies Warhol conspicuously employed to make his work home projectors tape recorders film and still cameras were advertised directly to the working class as new opportunities for cultural participation What's more some of Warhol's most iconic subjects Campbell's soup Brillo pads Coca Cola were similarly targeted since working class Americans under threat from a variety of directions were thought to desire the security and confidence offered by national brands Having propelled himself from an impoverished childhood in Pittsburgh to the heights of Madison Avenue Warhol knew both sides of this equation the intense appeal that popular culture held for working class audiences and the ways in which the advertising industry hoped to harness this appeal in the face of growing middle class skepticism regarding manipulative marketing Warhol was fascinated by these promises of egalitarian individualism and mobility which could be profound and deceptive generative and paralyzing charged with strange forms of desire By tracing its intersections with various forms of popular culture including film music and television Grudin shows us

how Warhol's work disseminated these promises while also providing a record of their intricate tensions and transformations

Evoquees par Augustin les Categories d'Aristote accompanees de l'introduction de Porphyre sont traduites et commentees par Boece. Deja exposee dans le monde arabo-musulman, cette oeuvre devait faire l'objet de nombreux commentaires dans le monde latin sans interruption du temps d'Abelard jusqu'a la fin du Moyen Age. De l'etude du langage a la theorie de l'etre, ouvrant sur la philosophie naturelle et la theologie, les interrogations que suscitent les Categories sont multiformes. Elles concernent le statut des categories, leur nombre, les differents types de predication ou la nature particuliere de certaines categories comme la relation ou la quantite. Le premier chapitre du traite, avec sa distinction entre equivoques univoques et paronymes, suscite des reflexions sur les variations semantiques, les transferts de sens et donne en meme temps naissance a la theorie de l'analogie de l'etant aux implications metaphysiques et theologiques majeures. Les vingt-deux essais de ce recueil explorent a travers l'etude d'auteurs connus ou moins connus les multiples facettes de cette riche tradition medievale de commentaires sur les Categories d'Aristote.
