*Arms, and the Man I sing . . .* Arvid Løsnes,2011-05-12 This study referred to as a preface is given this designation because its aim is not to offer an up to date overall assessment Dryden's translation of Virgil's *neid* but rather to provide a valid basis for such an assessment In this it seeks to provide a comprehensive analysis of relevant areas i.e the conditions of expression forming the very basis of the genesis of Dryden's translation and thus a valid understanding of the poetry of R A Brower Alexander Pope

*The Poetry of Allusion* London 1968 p 98 Part One provides a firsthand picture of the background out of which Dryden's translation came into being the tradition of *neid* translation The evolution of Dryden's theory of translation and his use of textual sources are discussed through a systematic presentation of the various conditions of expression involved as Dryden took upon himself to render Virgil's *neid* into English poetry Part Two presents the relevant aspects of Dryden's conception of Virgil and essential features of the Virgilian epic with reference to the assessments of modern classical scholars and Dryden's own conceptions in these matters Various analogies historical political and literary are drawn between the respective periods in which Virgil and Dryden lived to reflect the basic similarity in conditions of expression out of which Virgil's *neid* and Dryden's translation came into being

The Gender of Death Karl S. Guthke,1999 Why is it that in some cultures and times literature folklore and art commonly represent death as a man in others as a woman Karl S Guthke shows that these choices which often contradict the grammatical gender of the word death in the language concerned are neither arbitrary nor accidental In earlier centuries the gender of the figure of death contributed to the interpretation of biblical narrative in particular whether the original sin was that of Adam or Eve and also reflected the importance of the classical figure of Thanatos More recently the gender of death as angel lover or bride whether terrifying or welcome has carried powerful psychological and social connotations Tracing the gender of representations of death in art and literature from medieval times to the present day Guthke offers astonishing new insights into the nature and perception of the Western self in its cultural intellectual and literary context
