

The Necklace

SHE was one of those not so pretty and charming girls, born by a blunder of destiny in a family of school administrators. She had no ability, no sympathy, no means of being known, understood, loved, married. She was sad since she could not be the dictator of a third-world country; she was unhappy as though kept out of her own destiny of Inquisition executor; so she became your principal and is looking forward to evaluating you tomorrow.

You better have your ela common core lesson plans ready.

The Necklace Personification:

Personification in the Greek World Judith Herrin, 2017-07-12 Personification the anthropomorphic representation of any non human thing is a ubiquitous feature of ancient Greek literature and art Natural phenomena earth sky rivers places cities countries divisions of time seasons months a lifetime states of the body health sleep death emotions love envy fear and political concepts victory democracy war all appear in human usually female form Some have only fleeting incarnations others become widely recognised figures and others again became so firmly established as deities in the imagination of the community that they received elements of cult associated with the Olympian gods Though often seen as a feature of the Hellenistic period personifications can be found in literature art and cult from the Archaic period onwards with the development of the art of allegory in the Hellenistic period they came to acquire more intellectual overtones the use of allegory as an interpretative tool then enabled personifications to survive the advent of Christianity to remain familiar figures in the art and literature of Late Antiquity and beyond The twenty one papers presented here cover personification in Greek literature art and religion from its pre Homeric origins to the Byzantine period Classical Athens features prominently but other areas of both mainland Greece and the Greek East are well represented Issues which come under discussion include problems of identification and definition the question of gender the status of personifications in relation to the gods the significance of personification as a literary device the uses and meanings of personification in different visual media personification as a means of articulating place time and worldly power The papers reflect the enormous range of contexts in which personification occurs indicating the ubiquity of the phenomenon in the ancient Greek world *Polis and Personification in Classical Athenian Art* Amy C. Smith, 2011-06-22 In this study Dr Smith investigates the use of political personifications in the visual arts of Athens in the Classical period 480 323 BCE Whether on objects that served primarily private roles e g decorated vases or public roles e g cult statues and document stelai these personifications represented aspects of the state of Athens its people government and events as well as the virtues e g Nemesis Peitho or Persuasion and Eirene or Peace that underpinned it Athenians used the same figural language to represent other places and their peoples This is the only study that uses personifications as a lens through which to view the intellectual and political climate of Athens in the Classical period *Personification* Walter Melion, Bart Ramakers, 2016-03-11 Personification or prosopopeia the rhetorical figure by which something not human is given a human identity or face is readily discernible in early modern texts and images but the figure s cognitive form and function its rhetorical and pictorial effects have rarely elicited sustained scholarly attention The aim of this volume is to formulate an alternative account of personification to demonstrate the ingenuity with which this multifaceted device was utilized by late medieval and early modern authors and artists in Italy France England Scotland and the Low Countries Personification is susceptible to an approach that balances semiotic analysis focusing on meaning effects and phenomenological analysis focusing on presence effects produced through bodily

performance This dual approach foregrounds the full scope of prosopopoeic discourse not just the what but also the how not only the signified but also the signifier **Personification in Paleologan Painting, 1261-1453** Ljubica D. Popovich, 1963

Lavinia Fontana's Mythological Paintings Liana De Girolami Cheney, 2020-08-18 This volume investigates emblematic and art historical issues in Lavinia Fontana's mythological paintings Fontana is the first female painter of the sixteenth century in Italy to depict female nudes as well as mythological and emblematic paintings associated with concepts of beauty and wisdom Her paintings reveal an appropriation of the antique a fusion between patronage and culture and a humanistic pursuit of Mannerist conceits Fontana's secular imagery provides a challenging paragone with the male tradition of history painting during the sixteenth century and paves the way for new subjects to be depicted and interpreted by female painters of the seventeenth century **The Necklace (Read-Along Radio Drama)**, **Machines of the Mind** Katharine Breen, 2021-05-11 In *Machines of the Mind* Katharine Breen proposes that medieval personifications should be understood neither as failed novelistic characters nor as instruments of heavy handed didacticism She argues that personifications are instead powerful tools for thought that help us to remember and manipulate complex ideas testing them against existing moral and political paradigms Specifically different types of medieval personification should be seen as corresponding to positions in the rich and nuanced medieval debate over universals Breen identifies three different types of personification Platonic Aristotelian and Prudentian that gave medieval writers a surprisingly varied spectrum with which to paint their characters Through a series of new readings of major authors and works from Plato to *Piers Plowman* Breen illuminates how medieval personifications embody the full range of positions between philosophical realism and nominalism varying according to the convictions of individual authors and the purposes of individual works Recalling Gregory the Great's reference to *machinae mentis* machines of the mind Breen demonstrates that medieval writers applied personification with utility and subtlety employing methods of personification as tools that serve different functions *Machines of the Mind* offers

insight for medievalists working at the crossroads of religion philosophy and literature as well as for scholars interested in literary character building and gendered relationships among characters readers and texts beyond the Middle Ages
