The Best Service is No Service Bill Price, David Jaffé, 2011-09-14 In this groundbreaking book Bill Price and David Jaffé offer a new game changing approach showing how managers are taking the wrong path and are using the wrong metrics to measure customer service Customer service they assert is only needed when a company does something wrong eliminating the need for service is the best way to satisfy customers To be successful companies need to treat service as a data point of dysfunction and figure what they need to do to eliminate the demand The Best Service Is No Service outlines these seven principles to deliver the best service that ultimately leads to no service Eliminate dumb contacts Create engaging self service Be proactive Make it easy to contact your company Own the actions across the company Listen and act Deliver great service experiences

The Customer Service Revolution Bryan Horn, 2020-02-21 The way we do business has changed Customers are no longer driven by products and services alone They are experience driven customers who seek meaningful and genuine interactions with the companies they do business with Many companies have adapted a too big to fail mindset and have implemented policies that favor themselves instead of the customers who keep them in business Employees are treated as money making machines instead of valued teammates This has to change The Customer Service Revolution is packed full of innovating and inspiring stories and is changing the way companies think about their customers and the employees who make it all happen
