**A Bone to Pick** Mark Bittman, 2015-05-05 Since his New York Times op ed column debuted in 2011 Mark Bittman has emerged as one of our most impassioned and opinionated observers of the food landscape The Times only dedicated opinion columnist covering the food beat Bittman routinely makes readers think twice about how the food we eat is produced distributed and cooked and shines a bright light on the profound impact that diet both good and bad can have on our health and that of the planet In A Bone to Pick Mark's most memorable and thought provoking columns are compiled into a single volume for the first time As abundant and safe as the American food supply appears to be the state of our health reveals the presence of staggering deficiencies in both the system that produces food and the forces that regulate it Bittman leaves no issue unexamined agricultural practices government legislation fad diets and corporate greed all come under scrutiny and show that the issues governing what ends up in our market basket and on our tables are both complex and often deliberately confusing Unabashedly opinionated and invariably thought provoking Bittman's columns have helped readers decipher arcane policy unpack scientific studies and deflate affronts to common
