Data Science Diego Miranda-Saavedra, 2022-12-23 This book is a timely and critical introduction for those interested in what data science is and isn't and how it should be applied The language is conversational and the content is accessible for readers without a quantitative or computational background but at the same time it is also a practical overview of the field for the more technical readers The overarching goal is to demystify the field and teach the reader how to develop an analytical mindset instead of following recipes The book takes the scientist's approach of focusing on asking the right question at every step as this is the single most important factor contributing to the success of a data science project Upon finishing this book the reader should be asking more questions than I have answered This book is therefore a practising scientist's approach to explaining data science through questions and examples **Engineering for Peace and Diplomacy**

Mothers on the Margin?

E. Anne Clements,2014-05-01 The Gospel of Matthew opens with a patrilineal genealogy of Jesus that intriguingly includes five women Tamar Rahab Ruth she of Uriah and Mary In a gospel that has a strongly Jewish and male orientated outlook why are women incorporated In particular why include these four Old Testament women alongside Mary Rejecting traditional as well as feminist views Anne Clements undertakes a close literary reading of the narratives to discern how each woman is characterized and presented All are significant scriptural figures on the margins of Israelite society From this intertextual world established by Matthew Clements explores why Matthew may have named these women in the opening genealogy and what implications their inclusion may have for the ongoing gospel narrative Mothers on the Margin argues that Matthew s Gospel contains a counter narrative focused on women The presence of the five women in the genealogy indicates that the birth of the Messiah will bring about a crisis in Israel s identity in terms of ethnicity marginality and gender The women signal that Matthew s Gospel is concerned with the construal of a new identity for the people of God

Between Politics and Markets

Yi-min Lin,2001-12-17 Between Politics and Markets examines how the decline of central planning in post Mao China was related to the rise of two markets an economic market for the exchange of products and factors and a political market for the diversion to private interests of state assets and authorities Lin reveals their concurrent development through an account of

how industrial firms competed their way out of the plan through exchange relations with one another and with state agents
He argues that the two markets were mutually accommodating that the political market grew also from a decay of the state's
self monitoring capacity and that economic actors competition for special favors from state agents constituted a major
driving force of economic institutional change **Missing May Lit Link Gr. 4-6 ,**
