Parente Jr., Jan Bloemendal, 2023-07-31 This volume explores the indispensability of a transnational perspective for the construction and writing of literary histories of the Low Countries from 1200 1800 It looks at the role of mediators such as translators printers and editors at characteristics of literary genres and the possibilities they offered for literary boundary crossing and adaptation and at the role of regions and urban centers as multilingual hubs This collection demonstrates the centrality of transnational perspectives for elucidating the complex inter relationship between Netherlandic and European literary history The Low Countries were a dynamic site for new literary production and transnational exchange that shaped and reshaped the intellectual landscape of premodern Europe Contributors include Lia van Gemert Lucas van der Deijl Feike Dietz Paul Wackers David Napolitano James A Parente Jr Frank Willaert Yuri Desplenter Bart Besamusca Frans R E Blom and Jan Bloemendal Grammar in ELT and ELT Materials Graham Burton, 2023-06-06 This book investigates the content of the grammar syllabus typically employed in mainstream English Language Teaching Using a mixed methods approach the author examines how the syllabuses used in coursebooks are actually constructed how they evolved and how valid their contents are as a basis for teaching The research reported consists of a broad exploration of primary sources in order to outline the evolution of ELT pedagogical grammar ten

interviews with key ELT authors and publishing professionals which allows for the investigation of the decision making processes underlying the choice of grammar content in ELT teaching materials and finally the presentation of case studies which examine three areas of grammar analysing the evolution of their treatment in ELT materials both historical and contemporary and comparing their current treatment to data on real learner use This book contributes to the literature on syllabus design and pedagogical grammar and builds on existing research into materials design It will be of interest to researchers and professionals working in the fields of applied linguistics pedagogical grammar curriculum design and materials design

An Historical Syntax of the English Language F.Th. Visser,2023-05-08 Frederik Theodor Visser s An Historical Syntax of the English Language published in four massive volumes between 1963 and 1973 is certainly one of the cornerstones of research in English linguistics Visser s achievements can hardly be overestimated Before the advent of modern corpus linguistics he compiled a remarkable wealth of detailed philological data from all periods of English and combined this with current grammatical analyses of his time This has made this publications an indispensable resource for anyone investigating the history of English syntax This reproduction of Visser s volumes is more than welcome and timely as the volumes have been out of print for quite some time and were sometimes a little bit difficult to navigate Having a searchable and easy to use online version although maybe not perfect available now means a revival for scholarship that celebrates its fiftieth birthday without losing any of its relevance

*N.S. Trubetzkoy* N. S. Trubetzkoy,2001 Edited and with an introduction by Anatoly Liberman Translated by Marvin Taylor and Anatoly Liberman N S Trubetzkoy 1890 1939 is generally celebrated today as the creator of the science of phonology While his monumental *Grundz ge der Phonologie* was published posthumously and contains a summary of Trubetzkoy s late views on the linguistic function of speech sounds there has until now been no practical way to trace the development of his thought or to clarify the conclusions appearing in that later work With the publication of *Studies in General Linguistics and Language Structure* not only will linguists have that opportunity but a collection of Trubetzkoy s work will appear in English for the first time Translated from the French German and Russian originals these articles and letters present Trubetzkoy s work in general and on Indo European linguistics The correspondence reprinted here also for the first time in English is between Trubetzkoy and Roman Jakobson The resulting collection offers a view of the evolution of Trubetzkoy s ideas on phonology the logic in laws of linguistic geography and relative chronology and the breadth of his involvement with Caucasian phonology and the Finno Ugric languages A valuable resource this volume will make Trubetzkoy s work available to a larger audience as it sheds light on problems that remain at the center of contemporary linguistics

*Lettering Young Readers in the Dutch Enlightenment* Feike Dietz,2021-05-22 This book presents a rigorous hugely informative analysis of the early history of Dutch children s literature pedagogical developments and emerging family formations Thoroughly researched Dietz s study will be essential for historians of eighteenth century childhood education and children s books both in the Dutch context and more widely Matthew Grenby Newcastle University UK A rich informative well documented and effectively illustrated discussion of the ways Dutch eighteenth century educators tried to transform youth into responsible readers It does so in a wide international context and masterfully connects this process to the radical politicization and de politicization of Dutch society in the revolutionary period Wijnand W Mijnhardt formerly of Utrecht University the Netherlands and the University of California at Los Angeles USA This book explores how children s literature and literacy could at once regulate and empower young people in the eighteenth century Dutch Republic Rather than presenting the history of childhood as a linear story of increasing agency it suggests that we view it as a

continuous struggle with the impossibility of full agency for young people This volume demonstrates how this struggle informed the production of books in a historical context in which the development of independent youths was high on the political agenda In close interaction with international children s literature markets Dutch authors developed new strategies to make the members of young generations into capable readers and writers equipped to organize their own minds and bodies properly and to support a supposedly declining fatherland *Catalogue of Printed Books in the Library of the British Museum ...* British Museum.
