Religion and Relationships in Ragged Schools Laura M. Mair, 2019-03-22 Focusing on the interaction between teachers and scholars this book provides an intimate account of ragged schools that challenges existing scholarship on evangelical child saving movements and Victorian philanthropy With Lord Shaftesbury as their figurehead these institutions provided a free education to impoverished children The primary purpose of the schools however was the salvation of children s souls Using promotional literature and local school documents this book contrasts the public portrayal of children and teachers with that found in practice It draws upon evidence from schools in Scotland and England giving insight into the achievements and challenges of individual institutions An intimate account is constructed using the journals maintained by Martin Ware the superintendent of a North London school alongside a cache of letters that children sent him This combination of personal and national perspectives adds nuance to the narratives often imposed upon historic philanthropic movements Investigating how children responded to the evangelistic messages and educational opportunities ragged schools offered this book will be of keen interest to historians of education emigration religion as well as of the nineteenth century more broadly

Desire and Time in Modern English Fiction: 1919-2017 Richard Dellamora, 2020-08-04 Beginning with Somerset Maugham s innovative sexually dissident South Seas novel and tales and Alfred Hitchcock s gay inflected revisiting of the Jack the Ripper sensation in silent film this book considers the continuing presence of the past in future oriented work of the 1930s and the Second World War by Sylvia Townsend Warner Virginia Woolf George Orwell and the playwright and novelist Patrick Hamilton The final three chapters carry the discussion to the present in analyses of works by lesbian postcolonial and gay authors such as Sarah Waters Amitav Ghosh and Alan Hollinghurst Focusing on questions about temporality and changes in gender and sexuality especially gay and lesbian straight and queer following the rejection of the Victorian patriarchal marriage model this study examines the

continuing influence of late Victorian Aestheticist and Decadent culture in Modernist writing and its permutations in England

A Cultural History of Hair in the Age of Empire Sarah Heaton, 2020-12-10 Hair or lack of it is one the most significant identifiers of individuals in any society In Antiquity the power of hair to send a series of social messages was no different This volume covers nearly a thousand years of history from Archaic Greece to the end of the Roman Empire concentrating on what is now Europe North Africa and the Near East Among the key issues identified by its authors is the recognition that in any given society male and female hair tend to be opposites when male hair is generally short women s is long that hair is a marker of age and stage of life children and young people have longer less confined hairstyles adult hair is far more controlled hair can be used to identify the other in terms of race and ethnicity but also those who stand outside social norms such as witches and mad women The chapters in A Cultural History of Hair in Antiquity cover the following topics religion and ritualized belief self and society fashion and adornment production and practice health and hygiene gender and sexuality race and ethnicity class and social status and cultural representations Labour and the Free Churches, 1918-1939 Peter Catterall, 2016-10-06 Did the Labour Party in Morgan Phillips famous phrase owe more to Methodism than Marx Were the founding fathers of the party nurtured in the chapels of Nonconformity and shaped by their emphases on liberty conscience and the value of every human being in the eyes of God How did the Free Churches traditionally allied to the Liberal Party react to the growing importance of the Labour Party between the wars This book addresses these questions at a range of levels including organisation rhetoric policies and ideals and electoral politics It is shown that the distinctive religious setting in which Labour emerged indeed helps to explain the differences between it and more Marxist counterparts on the Continent and that this setting continued to influence Labour approaches towards welfare nationalisation and industrial relations between the wars In the process Labour also adopted some of the righteousness of tone of the Free Churches This setting was however changing Dropping their traditional suspicion of the State Nonconformists instead increasingly invested it with religious values helping to turn it through its growing welfare functions into the provider of practical Christianity This nationalisation of religion continues to shape British attitudes to the welfare state as well as imposing narrowly utilitarian and material tests of relevance upon the churches and other social institutions The elevation of the State was not however intended as an end in itself What mattered were the social and individual outcomes Socialism for those Free Churchmen and women who helped to shape Labour in the early twentieth century was about improving society as much as systems

**Intimate Subjects** Simeon Koole, 2024-07-26 An insightful history of nineteenth and twentieth century Britain told through a single sense touch When where and who gets to touch and be touched and who decides What do we learn through touch How does touch bring us closer together or push us apart These are urgent contemporary questions but they have their origins in late nineteenth and early twentieth century Britain when new urban encounters compelled intense discussion of what touch was and why it mattered In this vividly written book Simeon Koole excavates the history of these concerns and

reveals how they continue to shape ideas about touch in the present *Intimate Subjects* takes us to the bustling railway stations shady massage parlors all night coffee stalls and other shared spaces where passengers customers vagrants and others came into contact leading to new understandings of touch We travel in crammed subway cars where strangers negotiated the boundaries of personal space We visit tea shops where waitresses made difficult choices about autonomy and consent We enter classrooms in which teachers wondered whether blind children could truly grasp the world and labs in which neurologists experimented on themselves and others to unlock the secrets of touch We tiptoe through London's ink black fogs in which disoriented travelers became newly conscious of their bodies and feared being accosted by criminals Across myriad forgotten encounters such as these Koole shows touch remade what it meant to be embodied as well as the meanings of disability personal boundaries and scientific knowledge With imagination and verve *Intimate Subjects* offers a new way of theorizing the body and the senses as well as a new way of thinking about embodiment and vulnerability today

**Utopia** Anna Neima, 2022-04-28 Dartington Hall was a social experiment of kaleidoscopic vitality set up in Devon in 1925 by a fabulously wealthy American heiress Dorothy Elmhirst ne Whitney and her Yorkshire born husband Leonard It quickly achieved international fame with its progressive school craft production and wide ranging artistic endeavours Dartington was a residential community of students teachers farmers artists and craftsmen committed to revivifying life in the countryside It was also a socio cultural laboratory where many of the most brilliant interwar minds came to test out their ideas about art society spirituality and rural regeneration To this day Dartington Hall remains a symbol of countercultural experimentation and a centre for arts ecology and social justice *Practical Utopia* presents a compelling portrait of a group of people trying to live out their ideals set within an international framework and demonstrates Dartington's tangled affinities with other unity seeking projects across Britain and in India and America **Religious Vitality in Victorian London** W. M. Jacob, 2021 This

innovative book challenges many of the widely held assumptions about the place of religion in Victorian society and in London the world's first great industrial and commercial metropolis Against the background of Victorian London it explores the religiosity of Londoners as expressed through the dynamic renewal of traditional faith communities including Judaism and the historic churches as well as fresh expressions of religion including the Salvation Army Mormons spiritualism and the occult It shows how laypeople especially the rich and women were mobilised in the service of their faith and their fellow citizens Drawing on research in social economic oral cultural and women's history Jacob argues that religious motivations lay behind concerns that subsequently preoccupied people in the twentieth and twenty first centuries These include the changing place of women in society an active concern for social justice the sexual exploitation of women and children and provision of education for all classes and all ages By examining religion broadly in its social and cultural context and looking beyond conventional approaches to religious history *Religious Vitality in Victorian London* illustrates the dynamic significance of religion in society influencing even the expression of secularism     *Teaching Gender* Samuel Rutherford, 2025-03-17 In Britain in the late nineteenth and early twentieth centuries universities were one of many institutional state structures wherein gender difference the male breadwinner ideal and heterosexuality were central to a conception of citizenship But while the state could enforce these norms through the parameters it set on the extension franchise or the distribution of welfare benefits individual women and men also played active roles in creating and renegotiating them through the messy interactions of everyday life *Teaching Gender* immerses the reader in lecture theatres University Senate meetings student unions nightclubs and halls of residence to show how individuals efforts to find workable paradigms for relating to one another across gender lines took shape within specific institutional political and financial constraints and in the context of a historical moment when anxiety accrued around non normative genders and sexualities as symptomatic of wider social and political instability Drawing on extensive research in the archives of ten colleges and universities across England and Scotland Samuel Rutherford shows that the nationalization and centralization of higher education at the turn of the twentieth century resulted incidentally in coeducation over the protest of feminist activists who supported gender segregation that students negotiation of cross gender interaction in coeducational universities ultimately led them to identify heterosexuality as a seemingly less fraught paradigm than more gender neutral conceptions of corporate life and that single sex men's and women's colleges though increasingly marginal became important sites for the theorization of life paths and identities outside the heterosexual norm Through detailed recovery both of political and financial decision making and of the experiences and emotions of faculty students administrators donors and national politicians Rutherford paints a vivid and resonant picture of the university campus as a key site for the transmission of norms around gender and sexuality     *Britain, France and the Decolonization of Africa* Andrew W.M. Smith, Chris Jeppesen, 2017-03-01 Looking at decolonization in the conditional tense this volume teases out the complex and uncertain ends of British and French empire

in Africa during the period of late colonial shift after 1945 Rather than view decolonization as an inevitable process the contributors together explore the crucial historical moments in which change was negotiated compromises were made and debates were staged Three core themes guide the analysis development contingency and entanglement The chapters consider the ways in which decolonization was governed and moderated by concerns about development and profit A complementary focus on contingency allows deeper consideration of how colonial powers planned for colonial futures and how divergent voices greeted the end of empire Thinking about entanglements likewise stresses both the connections that existed between the British and French empires in Africa and those that endured beyond the formal transfer of power

**The Crimean War and its Afterlife** Lara Kriegel, 2022-02-17 Rescuing the Crimean War from the shadows Lara Kriegel demonstrates the centrality of a Victorian war to the making of modern Britain Irish London Richard Kirkland, 2021-08-12 Winner of the 2022 British Association of Irish Studies BAIS Book Prize In the years following the Irish Famine 1845 52 London became one of the cities of Ireland The number of Irish in London swelled to over 100 000 and from this mass migration emerged a distinctive and vibrant culture based on a shared sense of history identity and experience In this book Richard Kirkland brings together elements in Irish London s culture and history that had previously only been understood separately or indeed largely overlooked as in the case of women s contributions to London Irish politics and culture In particular Kirkland makes resonant cultural connections between Irish and cockney performers in the music halls Irish trade fairs temperance marches the Fenian dynamite war of the 1880s St Patrick s Day events and the later cultural agitation of revivalists such as W B Yeats and Katharine Tynan *Irish London A Cultural History 1850 1916* is both a significant contribution to our understanding of Irish emigrant communities in London at this time and an insightful case study for the comparative fields of cultural history and urban migration studies

**Semi-Detached** John Plotz, 2024-02-27 A critical look at the aesthetic encounter with semi detachment through literature and art When you are half lost in a work of art what happens to the half left behind *Semi Detached* delves into this state of being what it means to be within and without our social and physical milieu at once interacting and drifting away and how it affects our ideas about aesthetics The allure of many modern aesthetic experiences this book argues is that artworks trigger and provide ways to make sense of this oscillating in between place John Plotz focuses on Victorian and early modernist writers and artists who understood their work as tapping into amplifying or giving shape to a suspended duality of experience The book begins with the decline of the romantic tale the rise of realism and John Stuart Mill s ideas about social interaction and subjective perception Plotz examines Pre Raphaelite paintings that take semi detached states of attention as their subject and novels that treat provincial subjects as simultaneously peripheral and central He discusses how realist writers such as Charles Dickens George Eliot and Henry James show how consciousness can be in more than one place at a time how the work of William Morris demonstrates the shifting forms of semi detachment in print and visual media and how Willa Cather created a form of modernism that

connected aesthetic dreaming and reality Plotz concludes with a look at early cinema and the works of Buster Keaton who found remarkable ways to portray semi detachment on screen In a time of cyberdependency and virtual worlds when it seems that attention to everyday reality is stretching thin Semi Detached takes a historical and critical look at the halfway thereness that audiences have long comprehended and embraced in their aesthetic encounters [The Solidarity Economy](#) Tehila Sasson,2024-05-28 Histories of the economy often characterize the post war era as one of demoralization in which the rise of monetarism and neoliberalism marked a moral decline in public life The story Tehila Sasson tells here by contrast uncovers the humanitarian moral and popular origins of a new form of cultural capitalism one which promised that commerce could offer ethical progress after empire Unlike the more common story about the neoliberal and conservative right it focuses on the role of the British left and the nonprofit sector in particular in this transformation It follows economists MPs campaigners activists and journalists of the British left all of whom turned away from state led development towards a vision of decentralized fair trade markets For the key actors in this story it was the state not the marketplace that was morally vacant Haunted by the specter of imperial political economy they sought to bypass the state as the primary organizer of economic life Provided by publisher
