Summary of The Motivation Manifesto Instaread Summaries,2016-04-06 **Respect for Teachers** Brian Ford,2012-12-27 For over 30 years we have been in the midst of a paradox Following a questionable logic that sees education as a means to economic ends efforts to reform education have focused on keeping the US from slipping in international economic competition Relying on testing as a standard in the end we may have decreased our human potential and become less competitive Our system has gotten worse at its core in its philosophical tenets and in its ultimate effects by placing unwonted pressure on our youth and in stifling their creativity While this goes back decades Respect for Teachers takes its title from a phrase perhaps a codeword in President s 2011 State of the Union address and sits down to consider its implications Connecting attacks on teachers unions and schools and the misrepresentation of research to the promotion of new economic models in education it suggests that the Obama administration may be without quite realizing it setting the stage for rapid privatization of the public system As this endangers the egalitarian basis of democracy it also reminds us that schooling is big business many trillions of dollars world wide Joseph Schumpeter once said No bourgeoisie ever disliked war profits Respect operates under the premise that no bourgeoisie ever disliked the spoils of school reform either *The Times Index* ,1992 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Times educational supplement Scotland and the Times higher education supplement **Summary of The Motivation Manifesto**
