

A photograph of the U.S. Capitol building in Washington, D.C., viewed from a low angle. The building's iconic dome is the central focus, surrounded by classical architectural details like columns and arches. In the foreground, a massive, dense crowd of people fills the lower half of the frame, their heads and shoulders visible, suggesting a significant public gathering or protest. The sky is clear and blue.

documents as evidence Drawing on examples from American and comparative politics international relations and public policy Thinking Like a Political Scientist highlights the most common challenges that political scientists routinely face and each chapter concludes with exercises so that students can practice dealing with those challenges **The Oxford**

Handbook of Developmental Psychology, Vol. 2 Philip David Zelazo,2013-03-14 This handbook provides a comprehensive survey of what is now known about psychological development from birth to biological maturity and it highlights how cultural social cognitive neural and molecular processes work together to yield human behavior and changes in human behavior

Theories of the Policy Process Paul A Sabatier,Christopher Weible,2014-07-29 A comprehensive primer to the major theoretical frameworks used in policy process research written by leading public policy scholars Framing Inequality Matt

Guardino,2019-02-01 Neoliberal policy approaches have swept over the American political economy in recent decades In Framing Inequality Matt Guardino focuses on the power of corporate news media in shaping how the public understands the pivotal policy debates of this period Drawing on a wide range of empirical evidence from the dawn of the Reagan era into the Trump administration he explains how profit pressures and commercial imperatives in the media have narrowed and trivialized news coverage and influenced public attitudes in the process Guardino highlights how the political economic structure of mainstream media operates to magnify some political messages and to mute or shut out others He contends that news framing of policies that contribute to economic inequality has been unequal and that this has undermined Americans opportunities to express their views on an equal basis Framing Inequality is a unique study that offers critical understanding of not only how neoliberalism succeeded as a political project but also how Americans might begin to build a more democratic and egalitarian media system The Oxford Handbook of Electoral Persuasion Elizabeth Suhay,Bernard

Grofman,Alexander H. Trechsel,2020-04-01 Elections are the means by which democratic nations determine their leaders and communication in the context of elections has the potential to shape people s beliefs attitudes and actions Thus electoral persuasion is one of the most important political processes in any nation that regularly holds elections Moreover electoral persuasion encompasses not only what happens in an election but also what happens before and after involving candidates parties interest groups the media and the voters themselves This volume surveys the vast political science literature on this subject emphasizing contemporary research and topics and encouraging cross fertilization among research strands A global roster of authors provides a broad examination of electoral persuasion with international perspectives complementing deep coverage of U S politics Major areas of coverage include general models of political persuasion persuasion by parties candidates and outside groups media influence interpersonal influence electoral persuasion across contexts and empirical methodologies for understanding electoral persuasion **Trapped in America's Safety Net** Andrea Louise

Campbell,2014-09-02 A remarkable look at the flaws of the social safety net through one family s personal tragedy and the Catch 22 financial disaster that followed Deborah A Stone author of Policy Paradox When Andrea Louise Campbell s sister in

law Marcella Wagner was run off the freeway by a hit and run driver she was seven and a half months pregnant She survived and miraculously the baby was born healthy But that's where the good news ends Marcella was left paralyzed from the chest down This accident was much more than just a physical and emotional tragedy Like so many Americans neither Marcella nor her husband Dave who worked for a small business had health insurance On the day of the accident she was on her way to class for the nursing program through which she hoped to secure one of the few remaining jobs in the area with the promise of employer provided insurance Instead the accident plunged the young family into the tangled web of means tested social assistance As a social policy scholar Campbell thought she knew a lot about means tested assistance programs What she quickly learned was that missing from most government manuals and scholarly analyses was an understanding of how these programs actually affect the lives of the people who depend on them Using Marcella and Dave's situation as a case in point she reveals the programs shortcomings in this book Because American safety net programs are designed for the poor the couple first had to spend down their assets and drop their income to near poverty level before qualifying for help What's more to remain eligible they'll have to stay under these strictures for the rest of their lives barred from doing many of the things middle class families are encouraged to do Save for retirement Build an emergency fund Take advantage of tax free college savings And while Marcella and Dave's story is tragic the financial precariousness they endured even before the accident is all too common in America where the prevalence of low income work and unequal access to education have generated vast and growing economic inequality The implementation of the ACA has cut the number of uninsured and underinsured and reduced some disparities in coverage but continues to leave too many people open to tremendous risk Behind the statistics and beyond the ideological battles are human beings whose lives are stunted by policies that purport to help them In showing how and why this happens Trapped in America's Safety Net offers a way to change it An engaging narrative account of how social assistance programs shape real people's lives Campbell is authoritative and scholarly yet warm and personal a rare combination one sees in the likes of Oliver Sacks and Barbara Ehrenreich Deborah A Stone author of Policy Paradox Makes a compelling case for a stronger more integrated and ultimately more effective strategy for helping the millions of Americans who find themselves plummeting out of the insecure middle class Jacob S Hacker New York Times bestselling coauthor of Winner Take All Politics
