The Mini Story Giles Chapman, 2011 Very few cars inspire as much affection as the original Mini It's the small car everyone loves to eulogise because it oozes energetic fun classless minimalism and evergreen style But it's also of massive historical importance the 1959 Mini designed by Alec Issigonis set the template from which all successful compact cars have been created ever after It was the technological wonder of its age The original Mini was on sale for 41 years during which its 5.3m sales made it the best selling British car of all time an achievement unlikely ever to be beaten And just when it looked like the little car would shrivel and die BMW had the vision to reinvent it as the planet's most desirable small car range and put it back on the serious motoring map as the MINI Here award winning writer Giles Chapman tells the whole amazing story

*Cars We Loved in the 1980s* Giles Chapman, 2016-09-14 It was brash and it was loud the 1980s put paid to the glumness of the 70s and nowhere was that more obvious than in the cars we drove which took a quantum leap in durability performance equipment and style They had to Japanese quality and European design were luring away ever more customers Features such as fuel injection turbochargers computer controlled systems and four wheel drive became commonplace This was also the decade that brought us the people carrier and the off roader new classes of car that radically reshaped family transport Meanwhile seatbelt wearing became

law the M25 opened speed cameras appeared and ram raiding was the new motoring nemesis Relive everything car related in Britain in the 1980s with Giles Chapman      **Mini** Giles Chapman,2019-05-21 Mini celebrates 60 amazing years of this iconic car from its revolutionary introduction to the popularity of its new generation models The first two door Mini introduced in 1959 and built until 2000 revolutionized automotive design with its innovative front wheel drive layout that made the car appear bigger on the inside than the outside In 1999 the Mini was voted the second most influential car of the 20th century behind the Ford Model T Designed for British Motor Corporation BMC by Sir Alec Issigonis and manufactured in England Australia Spain Belgium Chile Italy Portugal South Africa Uruguay Venezuela and Yugoslavia the Mini was as successful in competition as it was on the street winning the Monte Carlo Rally four times from 1964 through 1967 Originally built by BMC the Mini s later parent company Rover was acquired by BMW in 1994 In 2000 BMW sold most of the Rover Group but retained the Mini brand The last and 5 387 862nd original Mini rolled off the production line in October 2000 In July 2001 BMW launched production of the new generation of Mini which was soon joined by Countryman Clubman convertible Cooper Works and numerous special editions Nearly 20 years later the new Minis remain as popular as the original from 1959      **Britain's Toy Car Wars** Giles Chapman,2021-10-01 For fifty years Britain made the best toy cars in the world expertly shrinking every kind of reallife vehicle and producing them in their countless die cast millions Dinky Toys were the 1930s pioneers then in the 1950s came the pocket money Matchbox series followed by Corgi Toys bristling with ingenious features and movie stardust But who were the driving forces behind this phenomenon And how did they keep putting the latest most exciting cars into the palm of your hand year after year In this illustrated and expanded edition of Britain s Toy Car Wars Giles Chapman reveals the extraordinary battle to dominate Britain s toy car industry and the dramas and disasters that finally saw the tiny wheels come off      Top Gear: My Dad Had One of Those Giles Chapman,Richard Porter,2012-06-30 Good old Dad and his good old Dad s car As solid and dependable as the man himself if a little less balding Dad s car was almost a member of the family whisking you to exciting days out or just to visit boring relatives in distant parts of the country to the chant of are we nearly there yet Like the man behind the wheel Dad s car made you feel safe and secure because it was as reassuring and sensible as he was Maybe in an idle moment Dad dreamt of driving something rakish and fast just like in idle moments he dreamt that your Mum was Twiggy but the demands of family life meant soft tops hard suspension and anything even remotely sporty were off the cards Even anything less than four doors would have been wildly hedonistic But although the family car may not have been the very essence of rock n roll Dad was proud of it Spanning the 1950s to the 80s this is a celebration of the heyday of the Dad car From much loved family workhorses like the Ford Cortina and Vauxhall Viva to the rakish excitement and playground kudos of the Rover 3500 and Citroen CX all the great Dad cars are here Reflecting a time before people carriers and lifestyle off roaders when the nearest thing to an airbag was hiding behind your fat brother this is a celebration of simple honest cars that were as flawed and as loveable as your Dad himself

Minorities in Shark Sciences showcases the work done by Black Indigenous and People of Color around the world in the fields of shark science and conservation Edited by three minority researchers it provides positive role models for the next generation Highlighting new and important research done in the fields of biology ecology and evolution the book places emphasis on scientists with diverse backgrounds and expertise from around the world The heart of this book is that community and minority voices are important and have always been to science regardless of diplomas universities accolades western standards of academia Despite the use of the term Minorities most of the world s population do not identify as white nor male and in fact all minorities together comprise the global majority of humans For those in these historically underserved and underrepresented demographics it is meaningful to be highlighted and be given credit for their contributions This book showcases to the world the many Black Indigenous People of Color and LGBTQ scientists leading marine conservation both in terms of scientific research and science communication It has been shown in the literature that diversity in scientists creates diversity in thought which leads to innovation Strong minority voices are exactly what is needed to bring greater attention to the conservation of sharks and this book illustrates innovative science by people who were historically excluded from STEM It highlights the unique perspectives these scientists bring to their field that allow them to interact with stakeholders particularly in the areas of conservation and outreach As we continue to amplify these often forgotten voices through research outreach and engagement we hope to stimulate innovation and transformative change in the field of shark conservation and marine science     **The Publisher**
