Hope in the Storm Joe Gacheru, 2022-01-15 I very much know that when we or our loved ones are going through some tough experiences like a prolonged sickness what we want to hear and what we want to know is that God still cares to feel His closeness and to know He knows what we are going through We want to know that God hears our prayers even in the middle of the night when no one else is there What I strongly believe is that not a single prayer slips by God because there's no time of day He isn't listening God heard you ten years ago and He heard you last week and He hears you right now and He's already listening for your tomorrow In fact He's listening so well He already knows what you're going to say I also know very well that God never says Oops God is in control of the trials God is not on his throne wringing his hands as he waits for the outcome of events Take from it me my friend no matter how dysfunctional your background how broke or broken you are where you are today or what anyone else says you matter to our living God

Developing Leaders Mary Hladio, 2017-07-11 How to close the gap between job satisfaction and genuine engagement and create training and development plans that produce passionate leaders Many companies and managers fall back on traditional and standardized training events when trying to improve upon broad areas that can't really be managed such as change time and stress Mary Hladio knows that these approaches don't work and the numbers prove she's right Research by the Society for Human Resource Management SHRM shows that while over eighty percent of employees are generally satisfied with their current positions less than seventy percent feel passion and excitement for their job and just over half feel tuned in at work That's a thirty percent drop off between satisfaction and engagement To properly influence culture in a way

that results in better engagement business owners and company executives must first understand what optimal engagement would look like in their company and that's what Developing Leaders is all about. It is not simply designed to show people the problems with their current approaches but to provide workable solutions and a blueprint for how to link a company's development objectives to their corporate strategy as a precursor to creating any developmental plan. Hladio tackles one of the most critical components of your success. You will begin to learn both how to be a leader and how to identify others as true and worthy leaders.
