Often considered as Lovecrafts first Cthulhu Mythos story The Nameless City is an ancient ruin located somewhere in the deserts of the Arabian Peninsula and is older than any human civilization In ancient times the city was built and inhabited by an unnamed race of reptiles with a body shaped like a cross between a crocodile and a seal with a strange head common to neither involving a protruding forehead horns lack of a nose and an alligator like jaw These beings moved by crawling thus the architecture of the city has very low ceilings and some places are too low for a human being to stand upright Their city was originally coastal but when the seas receded it was left in the depths of a desert This resulted in the decline and eventual ruin of the city H P Howard Phillips Lovecraft was an American author who achieved posthumous fame through his influential works of horror fiction Virtually unknown and only published in pulp magazines before he died in poverty he is now regarded

as one of the most significant 20th century authors in his genre Intellectually precocious but sensitive Lovecraft had begun composing rudimentary horror tales and had begun to be overwhelmed by feelings of anxiety by the age of eight In early adulthood he was established in a reclusive nightbird lifestyle without occupation or pursuit of romantic adventures In 1913 his conduct of a long running controversy in the letters page of a story magazine led to his being invited to participate in an amateur journalism association Encouraged he started circulating his stories he was 31 at the time of his first publication in a professional magazine within a few years he was a regular contributor to newly founded Weird Tales magazine

The Nameless City - Publishing People Series Howard Phillips Lovecraft, 2020-10-26 When I drew nigh the nameless city I knew it was accursed I was traveling in a parched and terrible valley under the moon and afar I saw it protruding uncannily above the sands as parts of a corpse may protrude from an ill made grave Fear spoke from the age worn stones of this hoary survivor of the deluge this great grandfather of the eldest pyramid and a viewless aura repelled me and bade me retreat from antique and sinister secrets that no man should see and no man else had dared to see Remote in the desert of Araby lies the nameless city crumbling and inarticulate its low walls nearly hidden by the sands of uncounted ages It must have been thus before the first stones of Memphis were laid and while the bricks of Babylon were yet unbaked There is no legend so old as to give it a name or to recall that it was ever alive but it is told of in whispers around campfires and muttered about by grandams in the tents of sheiks so that all the tribes shun it without wholly knowing why It was of this place that Abdul Alhazred the mad poet dreamed of the night before he sang his unexplained couplet I should have known that the Arabs had good reason for shunning the nameless city the city told of in strange tales but seen by no living man yet I defied them and went into the untrodden waste with my camel I alone have seen it and that is why no other face bears such hideous lines of fear as mine why no other man shivers so horribly when the night wind rattles the windows When I came upon it in the ghastly stillness of unending sleep it looked at me chilly from the rays of a cold moon amidst the desert's heat And as I returned its look I forgot my triumph at finding it and stopped still with my camel to wait for the dawn

Lovecraft Donald R. Burleson, 2014-07-11 Howard Phillips Lovecraft 1890-1937 has been described variously as the successor to Edgar Allan Poe a master of the Gothic horror tale and one of the father of modern supernatural fantasy fiction Published originally in pulp magazines his works have grown in popularity since his death so that more than thirty editions are currently in print Yet only recently has Lovecraft received serious attention from literary critics And until now no one has examined his work from a post structuralist perspective Donald Burleson fills that void for the first time in an extended study bringing the resources of deconstruction to bear on the works of this modern gothicist In an introductory overview Burleson gives an unusually readable account of deconstruction theory and terminology a field all too often discussed in densely opaque fashion He goes on to deconstruct thirteen Lovecraft stories delving into their fascinating etymological mazes abundant ambiguities and shifting levels of meanings His lively and remarkably jargon free readings explore Lovecraft's rich figurality to

unprecedented depths At the same time Burleson develops the view that in practicing self subversion and structural displacement literary texts perpetuate themselves His final chapter explores the broad themes running through Lovecraft's fiction arguing that these themes in themselves prefigure the deconstructive gesture This insightful and provocative volume will go a long way toward displacing the label of popular writer and establishing Lovecraft as an important figure in American literature
