Twenty years ago when authors Shawn and Beth Dougherty purchased the land they would come to name the Sow s Ear the state of Ohio designated it not suitable for agriculture Today their family raises and grows 90% of their own food Such self sufficiency is largely the result of basing their farming practices around intensive pasture management Pioneered by such luminaries as Allan Savory Greg Judy and Joel Salatin the tenets of holistic grazing employed mostly by larger scale commercial operations have been adapted by the Doughertys to fit their family s needs In *The Independent Farmstead* The Sow s Ear model for regenerating the land and growing food the best you ever tasted is elucidated for others to use and build upon In witty and welcoming style *The Independent Farmstead* covers everything from choosing a species of ruminant and incorporating it into a grass based system to innovative electric fencing and watering systems to what to do with all of the milk meat and yes manure that the self sustaining farm produces
