Environmental Sociology John Hannigan, 2022-09-09 John Hannigan's definitive textbook offers a distinctive balanced coverage of environmental issues policies and action This revised fourth

edition has been expanded and fully updated to explore contemporary developments and issues within global environmental sociology. Environmental Sociology reconciles Hannigan's widely cited model of the social construction of environmental problems and controversies which states that incipient environmental issues must be identified, researched, promoted and persuasively argued in the form of claims with an environmental justice perspective that stresses inequality and threats to local communities. For example, this new edition explores the interconnections between indigenous communities and environmental activists via a study of the difficult relationship between Aboriginal people and environmentalists in Australia. The updated fourth edition also discusses new direct action protest groups such as Extinction Rebellion who have reframed the discourse around the climate emergency using apocalyptic language and imagery. Environmental Sociology also signposts exciting new directions for future research. The fourth edition re-interrogates the classical roots of environmental theory with a focus on the work of Alexander von Humboldt. Hannigan also asserts the need for environmental sociologists to turn their attention to The Forgotten Ocean, arguing that the discipline should incorporate cutting edge concepts such as marine justice, striated space and volumetrics. Environmental Sociology is a key text for students and researchers in environmental studies, political ecology, social geography and environmental sociology.

City-building In America Anthony M Orum, 2018-10-08

Why do some cities grow and expand while others dwindle and decline? Why is Milwaukee a town of the past while Minneapolis-St Paul seems reborn and infused with future dynamism? And what do Milwaukee and the Twin Cities have to tell us about other cities? Prospects, the trials and destinies of industrial Cleveland and post industrial Austin. Anthony Orum's new book tells the story of these cities and at the same time of all cities. Here the urban past, present and future are woven into one compelling tale. Orum traces the shift in the sources of urban growth from entrepreneurs to institutions and highlights the emergence of local government as a prominent force indeed as an institution in shaping the trajectory of the urban industrial heartland. This complex trajectory includes all aspects of urban boom and bust, population trends, economic prosperity, politics and culture as well as hard to pin down qualities like a city's collective hope and vision. Interspersing social theory, historical ethnography and comparative analysis to help explain the fates of different cities, Orum lucidly portrays factory openings, labor strikes, elections, evictions, urban blight, white flight, recession and rejuvenation to show the core histories and future shape of cities beyond the particulars presented in these pages. The reader will discover the key people and politics of cities along with the forces that direct them. With a rich variety of sources including newspapers, diaries, census materials, maps, photo essays and perhaps most captivating, original oral histories, *City Building in America* is ideal for anyone interested in urban transformation and for courses in urban sociology, urban politics, industrial sociology, social change and social mobility.

Globalization and After Samir Dasgupta, Ray Kiely, 2006-09-07. Addresses many questions concerning the form of globalisation such as: Does globalization involve integration on a worldwide scale or will there be a levelling off or even a reversal? Is there an alternative to globalization? This work explores the tensions and dilemmas inherent

in globalization from local national and global perspectives University Spatial Development and Urban Transformation in China Cui Liu, 2017-07-14 The past few decades have seen universities take on a leading role in urban development actively providing public services beyond teaching and research The relationship between the university and the city has great influence on the space of university which is vividly reflected in the process of university spatial development This process has been particularly evident in China as Chinese universities and cities have been undergoing dramatic transformations since reform in the late 1970s University Spatial Development and Urban Transformation in China explores the changing relationship between the university and the city from a spatial perspective Based on theories and discourses on the production of space the book analyzes case studies in university spatial development in China at three scales global national and local covering social and urban contexts the urban transformation interactions in the development process and the changing dynamic between university and city to propose mutually beneficial planning strategies This book is a valuable resource for academics researchers and urban planners in identifying the key factors and relationships in university spatial development using theoretical and empirical data to guide future urban planning Urban Geography David Kaplan, Steven Holloway, 2024-07-18 Provides a comprehensive and up to date treatment of Urban Geography The leading undergraduate textbook on the subject Urban Geography covers the origins historical development and contemporary challenges of cities and metropolitan areas around the world Incorporating the most recent research in urban studies authors David H Kaplan and Steven R Holloway provide an overview of the dynamic field introduce key elements of urban theory and methodology analyze issues of immigration ethnicity and urbanism and more Exploring the urban experience in a global context 16 student friendly chapters address urbanization processes industrial urbanization discrimination in the housing market gentrification metropolitan governance urban planning geographical and political fragmentation urban immigration urban economic restructuring and more Each chapter includes an introductory road map learning objectives definitions of key terms discussion questions and suggestions for research topics and activities The fourth edition of Urban Geography contains two entirely new chapters on urban transportation and the relationship between cities and the environment including climate change and natural disasters New discussion of the impact of COVID 19 and other health aspects of cities is accompanied by new data new figures new themes and new pedagogical tools In this edition the authors present traditional models of urban social space and new factors that organize intra urban space such as globalization and postmodernism Examining cities in the developed world and in less developed regions Urban Geography Fourth Edition is the ideal textbook for Urban Geography classes and related courses in Urban Studies Sociology and Political Science programs **Globalization and New Intra-Urban Dynamics in Asian Cities** Natacha Aveline-Dubach [Sue-Ching Jou] Hsin-Huang Michael Hsiao [], 2014-08-04 This book presents a set of essays on the globalization and intra urban dynamics of the Asian cities conducted by Taiwanese and French researchers It covers four main themes culture led regeneration projects dynamics of second tier

cities urban redevelopment and land issues and new urban spaces of regulation associational life and civic action It involved comparing research subject priorities in this field as well as the approaches chosen to deal with them within a geographical zone extended from Northeast to southern Asia Rather than a comparison between Western and Asian visions of the same urban objects the project aimed to highlight differences and or similarities in the approaches of scientific communities inevitably influenced by national issues With great articulation and discourse between urban reality and theories it also observes distinctive approaches of urban research teams respectively in France and Taiwan **Patch Atlas** Victoria J. Marshall, Mary L. Cadenasso, Brian P. McGrath, Steward T. A. Pickett, 2020-01-03 A new tool for analyzing urban land cover that integrates design practices and ecological knowledge for understanding cities as complex patchy and dynamic systems This atlas is a unique conceptual tool to describe and analyze cities as complex systems using a new hybrid approach to urban land cover classification As an impetus to bring ecologists and urban designers together it builds on over a decade of shared knowledge from the Baltimore Ecosystem Study to inspire ecologically motivated design practice Rather than separating human constructed environments from predominantly biological and geological ones this book integrates built and ecological structures and shows how this integration can contribute to the scholarship of ecology and the practice of design The atlas displays maps and tables depicting these hybrid land cover classes and the relationships between them information on how the specific patch arrangements evolved over time and speculations on how cover might change through design disturbance or succession Interdisciplinary and strikingly illustrated the atlas is a new way to study measure and view cities with a more effective interaction of scientific understanding and design practice *Public Budgeting and Finance, Fourth Edition*, Robert T. Golembiewski, 1997-06-09 This incomparable Fourth Edition of a standard reference text has been thoroughly updated and enlarged offering comprehensive coverage of the field in a single source and incorporating entirely new as well as time tested material *From Revolution to Chaos in Haiti (1804-2019)* Rhodner J Orisma, 2020-01-13 Haiti is a failing state The country is still unable to provide basic needs such as employment food housing healthcare and education to a majority of its inhabitants in over two centuries after its revolution and Independence of 1804 Relatively incompetent both the nation s government and its opposition ignore moral politics and instead focus on corruption and fighting each other Though free from French rule the country remains tied to its slave past and violent history It seems like a socioeconomic and urban consensus cannot be achieved in order to carry out sustainable solutions for the people This book *From Revolution to Chaos in Haiti 1804 2019 Urban Problems and Redevelopment Strategies* is an attempt to analyze this situation from a historical perspective First the Haitian Revolution of 1804 is displayed to show the violent and bloody struggles of outstanding leaders and warriors against colonial powers for the making of a great political and independent nation Second Haiti s decline is analyzed starting from the assassination of its first leader Jean Jacques Dessalines in 1806 to the country s bottom rank in the global stratification during the 2010 s along with the impact of the catastrophic 2010 earthquake The

main factors noted within this decline are linguistic agricultural urban and HIV AIDS TB healthcare issues and undercapitalization along with ideological confusions capitalism neoliberalism socialism social democracy and political instability
