but oddly intimate relationship in which secular ideas compete with corresponding religious convictions but neither side wins by displacing the other As traditional religious knowledge and values come into conflict with their secular counterparts the old ideas undergo stress and adaptation but the influence works in both directions Whether they do so consciously or unconsciously entangled secularists engage with and sometimes borrow from older paradigms they believe they have surpassed Something Old Something New takes an unusual approach to this popular debate and offers a new perspective in the conversation between believers and secularists This is a book that theists atheists agnostics and everyone still searching for the right label will find respectful but provocative
