The Routledge International Handbook of Shared Parenting and Best Interest of the Child José Manuel de Torres Perea, Edward Kruk, Margarita Ortiz-Tallo, 2021-05-26. This multidisciplinary volume offers an essential comprehensive study of perspectives on the scope and application of the best interests of the child and focuses mainly on its application in relation to child custody. With expert contributions from psychological, sociological, and legal perspectives, it offers scientific analysis and debate on whether it should be the primary consideration in deciding child custody cases in cases of divorce or separation or whether it should be one of several primary considerations. It explores complex dilemmas inherent in shared parenting and whether the advantages it offers children are sufficient when compared to attributing custody to one parent and limiting visitation rights of the other. Offering a comprehensive analysis of this complex topic, chapters provide detailed insight into the current state of research in this area as well as expert guidelines aimed at resolving the controversies when parents agree or disagree over their children's living arrangements. Cutting edge topics explored include transnational shared parenting, alternative dispute resolution, breastfeeding, parents' religious disputes between parents, and the psychological, social, and economic factors that affect shared parenting. *The Routledge International Handbook of Shared Parenting and Best Interest of the Child* will be essential reading for scholars and graduate students in law, psychology, sociology, and economics interested in shared parenting and family law.
