Making Sense of Whole Language John W. Myers, 1993 Based on the premise that whole language is a philosophy or perspective rather than a set of practices, this fastback develops a definition of whole language, presents an information processing model of language processes and discusses theory/practice relationship and assessment as they relate to whole language. Sections of the fastback are: Making Sense of Whole Language, A Holistic View of Language, What Research Says, Theory into Practice, Whole Language Arts, and Whole Language and Assessment. The pamphlet concludes that 1) theory determines practice, 2) integrated language activities are more powerful than separated ones, 3) whole language arts cut across the curriculum, and 4) instructional goals should drive the assessment of language arts skills. Six figures are included and a 47-item bibliography is attached. RS
