*The Nature of Modernism* Elizabeth Black, 2017-11-22 This book presents the first extended study of the relationship between British modernist poetry and the environment Challenging reductive associations

of modernism as predominantly anthropocentric in character and urban in focus the book's central argument is that within British modernist poetry there is a clear and sustained interest in the natural world which has yet to receive adequate critical attention Whilst modernist studies continues to emphasize the plurality of the movement and the breadth of voices and concerns within it the environmental consciousness of modernist literature and its response to changes to human nature relations following the experience of war and modernity remain largely unexamined Exploring British modernist poetry from an ecocritical perspective offers a fresh approach to the movement and its context and produces original readings of both canonical and more marginalized modernist voices This book opens by discussing the relationship between modernism and ecocriticism and the benefits of creating a dialogue between the two It then presents new readings of Edward Thomas T S Eliot Edith Sitwell and Charlotte Mew that reveal a shared preoccupation with environmental issues and a common desire to find new ways of achieving physical psychological and artistic reconnection with nature Building on the continuing growth of ecocriticism this book demonstrates how green approaches to modernist studies can produce new insights into both individual poets and the modernist movement as a whole making it an essential resource for students of modernism ecocriticism and early twentieth century literature

*Peripatetic Frame* Thomas Deane Tucker, 2020-02-14 From cinema s earliest days walking and filmmaking have been intrinsically linked Technologically culturally and aesthetically the pioneers of cinema were not only interested in using the camera to scientifically study ambulatory motion but were also keen to capture the speed and mobile culture of late 19th century urban life Photographers such as Felix Nadar took their cameras into the Parisian streets and boulevards as mechanised flâneurs ushering us into the age of the mobilised virtual gaze But if photography could only embalm modernity in an instant of time the cinema brought these instants to life again From Muybridge and Marey s photographic studies of motion to Charlie Chaplin s character The Tramp and from the Steadicam to the police procedural Thomas Deane Tucker explores the intertwined relationship between cinema and walking from its very first steps breaking new ground in motion studies and providing a bold new perspective on film history

Handbook of British Travel Writing Barbara Schaff, 2020-09-07 This handbook offers a systematic exploration of

current key topics in travel writing studies It addresses the history impact and unique discursive variety of British travel writing by covering some of the most celebrated and canonical authors of the genre as well as lesser known ones in more than thirty close reading chapters Combining theoretically informed astute literary criticism of single texts with the analysis of the circumstances of their production and reception these chapters offer excellent possibilities for understanding the complexity and cultural relevance of British travel writing Coleridge and the Geometric Idiom Ann C. Colley,2023-03-16

When Coleridge described the landscapes he passed through while scrambling among the fells mountains and valleys of Britain he did something unprecedented in Romantic writing to capture what emerged before his eyes he enlisted a geometric idiom Immersed in a culture still beholden to Euclid's Elements and schooled by those who subscribed to its principles he valued geometry both for its pragmatic function and for its role as a conduit to abstract thought Indeed his geometric training would often structure his observations on religion aesthetics politics and philosophy For Coleridge however this perspective never competed with his sensitivity to the organic nature of his surroundings but rather intermingled with it Situating Coleridge's remarkable ways of seeing within the history and teaching of mathematics and alongside the eighteenth century's budding interest in non Euclidean geometry Ann Colley illuminates the richness of the culture of walking and the surprising potential of landscape writing **Pagan Portals - A Guide to Pilgrimage** Thea Prothero,2024-10-29 Pilgrimage is one of the oldest forms of sacred journeying But how does it fit into the 21st century and more importantly how is it relevant to our tech heavy super busy lives This book is a blueprint for understanding how going on a pilgrimage will spiritually fulfill and ultimately transform you Discover how this ancient practice can be traced through history and how it still plays a significant role in the many paths of faith today Here you'll find stories of modern pilgrimage words of wisdom from literature meditations and tools to inspire you towards taking your first physical steps on your journey

Ecocriticism and the Island Pippa Marland,2022-12-19 Islands have long been the subject of cultural fascination but in recent decades they have exerted an increasingly powerful centrifugal force sending writers to the outer edges of the British Irish archipelago in search of inspiration and insight Drawing on contemporary ecocritical approaches island studies and emergent archipelagic perspectives Ecocriticism and the Island explores a wide selection of island themed creative non fiction Through a combination of textual analysis and where possible original interviews and archival research Pippa Marland offers new insights into the work of Tim Robinson Brenda Chamberlain Christine Evans W G Sebald Stephen Watts Amy Liptrot Kathleen Jamie Adam Nicolson Robert Macfarlane and David Gange In assessing the ways in which these authors negotiate existing cultural tropes of the island while offering their own distinctive articulations of islandness this book represents an important intervention into island literary studies At the same time it contributes to the development of an archipelagic strand of ecocriticism one that offers a valuable perspective on human environmental relationships in an Anthropocene context
