The Piazza Tales and Other Prose Pieces, 1839-1860 Herman Melville, 1987-09 Included are two sea tales that encompass the essence of Melville's art Benito Cereno an exhilarating account of mutiny and rescue aboard a disabled slave ship which is a parable of man's struggle against the forces of evil and The Encantadas ten allegorical sketches of the Galapagos Islands which reveal nature to be both enchanting and horrifying Two pieces explore themes of isolation and defeat found in Melville's great novels Bartleby the Scrivener a prophetically modern story of alienation and loss on nineteenth century Wall Street and The Bell Tower a Faustian tale about a Renaissance architect who brings about his own violent destruction The other two works reveal Melville's mastery of very different writing styles The Lightning Rod Man a satire showcasing his talent for Dickensian comedy and The Piazza the title story of the collection which anticipates the author's later absorption with poetry

Walking Shadows Ib Johansen, 2015-08-25 *Walking Shadows* focuses on the American fantastic and the American grotesque attempting in this manner for the first time to establish an overview of and a theoretical approach to two literary modes that have often been regarded as essential to an understanding of the American cultural canon The central importance of these two literary forms has been pointed out earlier by important theorists such as Stanley Cavell David Reynolds and William Van O'Connor A number of literary works from the beginning of the nineteenth to the end of the twentieth centuries are taken up in order to illustrate the inherent links or family resemblances between the two modes with special reference to the way in which a Bakhtinian reading may facilitate our appreciation of their status within the canon These excursions into the House of Fantastic and Grotesque Fiction may be of interest not only to hardcore aficionados but also to philosophically minded readers in general in particular perhaps to those who have paid acute attention to debates on late twentieth and early twenty first century post structuralism and deconstruction where the classic positions of Foucault Derrida et al still appear to be relevant

Melville's Short Fiction, 1853-1856 William B. Dillingham, 2008 This study treats comprehensively the sixteen short works of fiction that Herman Melville wrote between 1853 and 1856 most of which were published in Harper's and Putnam's magazines Concentrating on the writer's two basic motivations for writing as he did in these stories Dillingham argues that Melville created a surface of almost inane congeniality in many of the works an illusion of vapidty that camouflages a profundity often missed by his readers He sought to to hide disturbing themes because the magazines for which he was writing would almost certainly have rejected his attempts to be more direct Dillingham's method is not however confined to a reading of the texts Melville's stories contain so many allusions to the contemporary scene that they constitute in themselves a cultural study An important contribution of Melville's Short Fiction is its discussion of these allusions Finally Dillingham examines the relationship between the short fiction and Melville's own life Much of the writer's frustration and struggle is concealed in these early works Melville's friendship with Hawthorne for example an intense and yet in some ways disappointing relationship for both men is explored as an important influence on several of the stories

communities in the United States The city was seen by residents and observers as the laboratory for a social experiment with international consequences Philadelphia would be the stage on which racial character would be tested and a possible future for the United States after slavery would be played out It would be the arena in which various residents would or would not demonstrate their capacities to participate in the nation s civic and political life Otter argues that the Philadelphia experiment the term used in the nineteenth century produced a largely unacknowledged literary tradition of peculiar forms and intensities in which verbal performance and social behavior assumed the weight of race and nation
