The Girls' School Year Book ,1916 Elementary Experimental Science W. T. Clough,1923 **The Journal of Education** ,1908 **Educational Times** ,1892 **The Educational Times, and Journal of the College of Preceptors** ,1915 **Report of the Conference of Educational Associations** ,1927 **"The One" Dog and "The Others": A Study of Canine Character** Frances E. Slaughter,2022-11-21 The One Dog and the Others is an informative book that is sure to thrill any dog lover Author Frances E Slaughter notes that each dog owner is likely to secretly question the superiority of his own breed even in light of certain qualities lacking in it She writes to disavow this notion and states As man advances in civilization and grows more restrained in the habits and manners of his life his mind develops and one of the first signs of his progress is his respect for life as such The dog as his constant companion feels most in the realm of animal life the change in his master s outlook He is treated with ever increasing gentleness and comprehension For as one sign of a mind of low type or of a low order of development is an incapacity for sympathy with an intelligence either lower or higher than its own so with the expanding powers of man s mind he is able more and more to enter into the workings of his dog s mind

Child-study ,1917 **The Scottish Educational Journal** ,1920 Modernist Experiments in Genre, Media, and Transatlantic Print Culture Jennifer Julia Sorensen,2016-12-08 The years from 1890 through 1935 witnessed an explosion of print both in terms of the variety of venues for publication and in the vast circulation figures and the quantity of print forums Arguing that the formal strategies of modernist texts can only be fully understood in the context of the material forms and circuits of print culture through which they were produced and distributed Jennifer Sorensen shows how authors and publishers conceptualized the material text as an object as a body and as an ontological problem She examines works by Henry James Jean Toomer Djuna Barnes Katherine Mansfield and Virginia Woolf showing that they understood acts of reading as materially mediated encounters Sorensen draws on recent textual theory media theory archival materials and paratexts such as advertisements illustrations book designs drafts diaries dust jackets notes and frontispieces to demonstrate how these writers radically redefined literary genres and refashioned the material forms through which their literary experiments reached the public Placing the literary text at the center of inquiry while simultaneously expanding the boundaries of what counts as that Sorensen shows that modernist generic and formal experimentation was deeply engaged with specific print histories that generated competitive media ecologies of competition and hybridization
