debate over how young people are affected by violence strong language and explicit sexual activity in films The Motion Picture Association of America MPAA responded to this concern in 1968 when it introduced a classification and rating system based on the now well known labels G PG PG 13 R and X For some these simple tags are an efficient way to protect children from viewing undesirable content But do the MPAA ratings actually protect children In The Naked Truth Kevin S Sandler argues that the rating system does not protect children but instead protects the Hollywood film industry One prime indicator of this is the collective abandonment of the NC 17 rating in 1990 by the major distributors of the MPAA and the main exhibitors of the National Association of Theatre Owners By categorizing all films released by Hollywood and destined for mainstream theaters into R ratings or lower the industry ensures that its products are perceived as responsible entertainment to all audiences and incontestable to politicians and moral reformers By embracing a no NC 17 rule the industry collapses mature subject matter with pornography creating a national cinema where certain representations of sex and nudity are taboo
