philosopher of what constitutes the erotic The author argues that Hitchcock is doing a post Nietzschean postmodern kind of philosophy in which he is exploring and creating possibilities of what the erotic can feel like and how the erotic can be expressed The erotic is a pervasive phenomenon in Hitchcock s films It involves irony play and sophistication and there can be erotic failures as well as erotic successes The erotic is most complexly explored by Hitchcock in his two masterpieces from the 1950s *Vertigo* 1958 a story of the failure of the erotic and *North by Northwest* 1959 in which the erotic is consummated in marriage The author argues that Hitchcock has a philosophical theory about what makes the difference It is a version of existential philosophy that understands what a person is to be based on what they make of themselves through their choices The author argues that the erotic for Hitchcock is a process of mutual reciprocal creation of the personality of the other person This process is complicated by the fact that as one attempts to create the person one desires one is simultaneously being created by that other person and so what one desires is also in a process of being recreated in the mutual reciprocal dance of the erotic entanglement There is a moral dimension to this because erotic failure is in a way a failure of the human not in the sense of a human essence but in the sense of realizing human possibilities that can make our lives more satisfying complete and full Hitchcock as Philosopher of the Erotic will appeal to scholars and advanced students working on philosophy of film film studies and philosophy of love and sex Hottest Forbidden Taboo Erotic Sexy Stories Anthology
