The Noonday Demon

"All encompassing, brave,
and deeply humane. . . .

It is open-minded,
critically informed, and
poetic at the same time,
and despite the nature
of its subject it is written
with far too much élan
and elegance ever to
become depressing itself."

Mad Muse Jeffrey Berman, 2019-09-03 Many of the well respected scholarly studies of autobiographical writing have little or nothing to say about mental illness This book uncovers the mysterious relationship between mood disorders and creativity through the lives of seven writers demonstrating how mental illness is sometimes the driving force behind creativity

Darkness, Depression, and Descent in Anglo-Saxon England Ruth Wehlau, 2019-05-20 This collection of essays examines the motifs of darkness depression and descent in both literal and figurative manifestations within a variety of Anglo Saxon texts including the Old English Consolation of Philosophy Beowulf Guthlac The Junius Manuscript The Wonders of the East and The Battle of Maldon Essays deal with such topics as cosmic emptiness descent into the grave and recurrent grief In their analyses the essays reveal the breadth of this imagery in Anglo Saxon literature as it is used to describe thought and emotion as well as the limits to knowledge and perception The volume investigates the intersection between the burgeoning interest in trauma studies and darkness and the representation

of the mind or of emotional experience within Anglo Saxon literature

Coping With Depression Jon G. Allen, 2007-04-02

Distilling years of experience in educating psychiatric patients and their families about depression Jon Allen has written a practical book that addresses the challenges depressed patients face on the road to recovery Allen advocates approaching depression by focusing on the importance of hope and he helps patients understand depression through two simple ideas catch 22 and stress pileup This book conveys how the symptoms of depression impede all the things depressed persons must do to recover thus defusing self criticism while encouraging patients to take satisfaction in small steps toward improvement And the concept of stress pileup encompasses a developmental perspective respecting the full range of accumulated biological psychological and interpersonal stresses that play into depression This broad understanding helps patients become more compassionate toward themselves and puts them in a stronger position to make use of professional care Coping With Depression is written for a general audience including depressed persons and their family members as well as professionals seeking a readable integration of current knowledge that they can use to educate their patients Although written in nontechnical language the book provides a sophisticated and comprehensive understanding of the psychological development of depression the neurobiology of the illness and the full range of evidence based treatment modalities All material is buttressed by extensive references to theoretical clinical and research literature Coping With Depression emphasizes the concept of agency encouraging readers to take an active role in their recovery Countering today's trend toward exclusive reliance on antidepressant medication the book employs the perspective of developmental psychopathology to integrate psychosocial and neurobiological knowledge The book explains how biological vulnerability is intertwined with stress stemming from insecure attachment childhood adversity stressful life events emotional conflicts and problems in close relationships Going far beyond the chemical imbalance the author illustrates how the experience of depression is linked to changes in patterns of brain activity as evidenced by neuroimaging studies Coping With Depression will help readers understand the development of depression from a biopsychosocial perspective appreciate how depression is compounded by related conditions including bipolar disorder anxiety disorders substance abuse personality disorders general medical conditions and suicidal states understand how recovering from depression entails working on many fronts including improving physical health participating in pleasurable activities countering negative thinking resolving internal conflicts and above all establishing more stable and secure attachment relationships become knowledgeable about the treatment options that facilitate coping including cognitive behavioral interpersonal and psychodynamic psychotherapy as well as medication and combined treatment appreciate the centrality of hope in recovery from depression and the challenges to hope that depression poses To maintain hope patients their family members and clinicians must face the seriousness of the illness of depression and the daunting obstacles to recovery including catch 22 in all of its manifestations Throughout the book Allen reiterates the theme of agency depressed persons can use their intelligence to understand their illness and do something to

recover and remain well making use of help from others along the way *Making Publics in Early Modern Europe* Bronwen Wilson, Paul Yachnin, 2011-07-21 The book looks at how people things and new forms of knowledge created publics in early modern Europe and how publics changed the shape of early modern society The focus is on what the authors call making publics the active creation of new forms of association that allowed people to connect with others in ways not rooted in family rank or vocation but rather founded in voluntary groupings built on the shared interests tastes commitments and desires of individuals By creating new forms of association cultural producers and consumers challenged dominant ideas about just who could be a public person greatly expanded the resources of public life for ordinary people in their own time and developed ideas and practices that have helped create the political culture of modernity Coming from a number of disciplines including literary and cultural studies art history history of religion history of science and musicology the contributors develop analyses of a range of cases of early modern public making that together demonstrate the rich inventiveness and formative social power of artistic and intellectual publication in this period *Demons on the Couch* Michael J. Sersch, 2019-01-03 Belief in possession including from demonic forces has ancient roots and continues into the modern world especially among certain communities This has been shown in books movies places of worship and in the therapy office This book traces the global history of possession and looks at ways contemporary mental health professionals can help a person who believes themselves to be possessed Written especially for clinicians but interesting to a wide variety of readers this book uses a variety of disciplines including cultural studies psychology and personal experiences to try and understand the phenomenon from as wide a perspective as possible including interviews with exorcists from various backgrounds Both believers and sceptics will find this to be a fascinating study of a controversial topic **All in My Head** Paula Kamen, 2005-02-15 A personal cultural and scientific exploration of chronic untreatable pain **Modernism and Melancholia** Sanja Bahun, 2014 Modernism and Melancholia shows how a range of novels from 1913 to 1941 perform melancholia in their diction images metaphors syntax and experimental narrative techniques **Transformative Objects and the Aesthetics of Play** Lynn M. Somers, 2024-12-26 This book considers the sculpture of Louise Bourgeois 1911 2010 in light of psychoanalyst D W Winnicott s 1896 1971 radical ideas regarding transitional objects potential space and play offering a model for exploring the complex and psychologically evocative work Bourgeois produced from 1947 to 2000 Critical concepts from British object relational theories destruction reparation integration relationality and play drawn from the writings of Winnicott Melanie Klein Marion Milner and Christopher Bollas among others bear upon the decades long study of psychoanalysis Bourgeois brought to her sculptural production that was symbolic metaphorical and most importantly useful The book demonstrates how Bourgeois s transformative sculptural objects and environments are invested in object relations both psychical and tangible and explores Bourgeois s contention that the observer physically engage with the intricate sculptural objects and architectural spaces she produced Each chapter focuses on a key body of work *Femme Maison Personages Lairs Janus and Cells* examining how these

imaginative and playful objects are staged as embodied encounters in space and time to invoke the mutuality reciprocity and ambivalence of our object relationships Weaving a tapestry of aesthetic cultural and psychological encounters Transformative Objects and the Aesthetics of Play addresses critical relationships among Bourgeois s work and that of other artists from Pieter Brueghel to Eva Hesse It brings together practical archival and theoretical material offering close examinations of historically situated objects and analyses of their complex affects and spatiality Gathering critical perspectives from psychoanalysis cultural analysis feminist queer literary and affect studies the book extends its specific art historical scope to investigate the crucial roles that art and cultural experience assume in everyday life **Norman N. Holland** Jeffrey

Berman,2021-03-11 Norman Holland was unquestionably the leading 20th century American psychoanalytic literary critic Long known as the Dean of American psychoanalytic literary critics Holland produced an enormous body of scholarship that appeals to both neophytes in the field and advanced researchers many of whom have been influenced by his writings Holland was one of the first proponents of reader response criticism the theorist of readers identity themes and the author of fifteen books that have become classics in the field Jeffrey Berman analyzes all of Holland s books and many of his 250 scholarly articles highlighting continuities and discontinuities in the critic s thinking over time A controversial if not polarizing figure Holland is discussed in relation to his closest colleagues including Murray Schwartz Bernard Paris and Leslie Fiedler as well as his fiercest critics among them Frederick Crews David Bleich and Jonathan Culler creating a dynamic and personal portrait Insofar as this text illuminates the evolving mind of a premier literary critic it produces a parallel profile of the American reader the primary object of Holland s extensive work **Religion, Death, and Dying** Lucy Bregman,2009-11-25

A wide ranging anthology for general readers covering many religious ethical and spiritual aspects of death dying and bereavement in American society What do various spiritual and ethical belief systems have to say about modern medicine s approach to the end of life Do all major religions characterize the afterlife in similar ways How do funeral rites and rituals vary across different faiths Now there is one resource that gathers leading scholars to address these questions and more about the many religious ethical and spiritual aspects of death dying and bereavement in America Religion Death and Dying compares and contrasts the ways different faiths and ethical schools contemplate the end of life The work is organized into three thematic volumes first an examination of the contemporary medicalized death from the perspective of different religious traditions and the professions involved second an exploration of complex often controversial issues including the death of children AIDS capital punishment and war and finally a survey of the funeral and bereavement rituals that have evolved under various religions [The Human Psyche](#) Peter Snow,2010 The Human Psyche is a far reaching expose of human identity that seeks to unify the startling new insights gained from modern neuroscientific studies of higher consciousness with insights gained from introspection and philosophy In simple straightforward prose and diagrammatic form it presents several new models of the generation of and interactions between the neural centers that are responsible for

thought emotion and mood It will be of particular interest to neuroscientists neurologists biologists mental health professionals students of religion and philosophers and indeed all those fascinated by human behavior its origins in the animal world and its implications for our future The Human Psyche reminds us that we live in a time when science finally has significant answers about the true nature and origins of human behavior a perspective that heralds a new era that will inevitably see the dissolution of many hallowed though plainly stagnant institutions and the establishment of a new world
